Cheapness, Elegance and Excellance Combined!

Before subscribing to a Periodical for 1845, read the following Prospectus of the Third Volume of

ARTHUR'S LADIES' MAGAZINE.

PRICE ONLY $2.00 PER ANNUM,

48 Pages Reading Matter, besides two elegant Steel Plates, in each number!

The Publishers, in sending forth their Prospectus for the third volume of their Magazine, which is exclusively and permanently under the editorial control of T. S. ARTHUR, believe that they can offer to the public most substantial claims to patronage. The first and second volumes have been acknowledged on all hands to be equal, and, in many respects, superior, in character, strength, interest and attractiveness, to any of the magazines issued. The aim of the Editor is a high one. He repudiates the long prevalent system of basing his work upon the reputation of contributors, whose articles, no matter what they *have* done, are, in too many instances, below mediocrity.

Nothing gains admission into the pages of this Magazine, which is not excellent in itself. The source from which an article comes is secondary—its merits always primary. Such a rule, strictly carried out, must give character to any work. It has given "ARTHUR'S MAGAZINE" a character already acknowledged in all respectable quarters where it has been received.

Among the inexhaustable sources that open up to the hands of a literary caterer, GERMAN and FRENCH LITERATURE offer a wide field for selection. Into this region, with an admirable corps of translators, we are steadily penetrating, astonished at every step by the riches we meet. Especially is this the case in Literature. Already we have given some splendid articles from the German, brim full of pure truths, and forcible illustrations of the power of goodness. "Silent Love," "The Governor and his Successors," "The Unknown Patient," "The Russian Prince," "The Privy Counsellor," &c. &c. all who have read will remember with delight.

CLICKENER'S SUGAR COATED VEGETABLE EXTRACT PILLS.

A medicinal preparation is hereby announced which has been long desired, and sought for, and which the public must at once see and acknowledge the advantage of. It is a purgative pill, COATED WITH SUGAR, so that it leaves no taste whatever of its internal ingredients. In fact the medicine is so entirely disguised that if a person were to swallow the pills without being informed what they were, he would believe them to be simply lumps of pure sugar, nor could he afterwards, unless by its great purgative effect suspect that he had been taking medicine, for these pills are so skilfully prepared that they do not gripe the bowels, and thus the patient who takes them avoids two evils which attend all other purgative medicines; namely nausea and pain. Medicine administered in all other sweet forms has the disadvantage of being *mixed* with the suger, and hence produces a mingled flavor, which, to most persons is more disagreeable than unadulterated bitterness. In these pills this is altogether avoided; the sugar and the medicine being entirely distinct from each other, so that the former must be thoroughly removed before the latter can manifest itself to the taste. It is universally known that nearly all diseases originate with impurity of blood.—Pure blood is therefore essential to health. We must not, however, *wait* until the blood is impure, for then it takes time—and that time passed in ill health—to rectify it; but when the slightest derangement of the system is indicated by costiveness, or any other sign, it admonishes us that superfluities are gathering in the system, which should at once be got rid of, for their removal leaves the chyle, (from which the blood is formed) in a healthy state, and purity of blood must be the result. This fact, as stated, is universally known; but people have such an aversion to medicine, that, unless the case is urgent, they prefer the disease to the cure, until an impared constitution, or a fit of sickness rebukes them for the folly of their conduct.—Still they *had* some excuse; for *heretofore*, medicine in almost all its forms, was nearly as disgusting as it was beneficial. Now, however, the evil is most effectually removed; for CLICKENER'S SUGAR COATED VEGETABLE EXTRACT PILLS have no taste whatever of medicine—produce none of the nausea and griping, attendant on the operation of other medicine—while their speedy effect in removing all impurities from the system cannot be excelled by any other medicine which has ever been discovered.

It is unnecessary to say more here. If these pills are, as described, the public will freely and gladly patronise them; and the proprietsr merely asks a trial, which he is sure of receiving, to prove that he assumes no merit for them which they do not fully possess.

Clickener's Sugar-coated Vegetable Extract Pills are prepared and sold, wholesale and retail and for exportation, by C. V. CLICKENER & Co., Chemists, at the wholesale and retail drug warehouse, No. 79 and 81 Barclay street, New York. Price 25 cents.

Caution—The public should remember that C. V. Clickener is the inventor of the Sugar-Coated Pills, and that nothing of the sort was ever heard of until he introduced them. Therefore should any other person, seduced by the popularity of his discovery, advertise Sugar Coated Pills, they must be a wretched counterfeit, which it would be dangerous to use, as none but the most ignorant quacks can be found dealing in such a nefarious traffic, as palming off counterfeit for genuine medicine.

A CARD.

THE subscriber most respectfully informs his friends and the public generally that he has re-commenced the grocery & commission business in warehouse No 94 Dugans Wharf, and four doors above the old stand, where he will continue until the other is rebuilt, which will be completed by the first of April.

Having an entire new stock of groceries which have been selected with the utmost care, he would most respectfully invite country merchants and others who wish to purchase upon accommodating terms to call before they purchase elsewhere and examine for themselves.

He hopes by his undefatigable exertions to please, in both branches of his business, to win public favour and insure an increased share of the patronage heretofore so liberally extended.
