MEDICAL NOTICE.

DR. SMITH would respectfully inform his friends and the public that he continues to be confidentially consulted at his old established MEDICAL HOUSE, No. 16 South Frederick street, on all diseases of a PRIVATE OR DELICATE NATURE.

His long experience and attention to this class of complaints; his safe and speedy method of treatment, and his extraordinary success during a long and extensive practice, enables him, confidently, to promise all persons so afflicted, a safe and radical cure, without injury to the constitution or confinement from business. By a long course of study and practice experience, Dr. S. has now the gratification of presenting the unfortunate with remedies that have never failed, "since he first introduced them," to cure the most alarming case, and that in a very short but reasonable time, without the aid of mercury or any other deleterious drug. Within the last ten years Dr. S. has cured more than thirty thousand cases, of the above character, and it may be safely said that *more than one-half* of the patients had been previously treated with mercury and other mineral poisons by some foreign or native pretender to the healing art.

Dr. Smith does not profess to be a Parisian, or a gradute of any London or Parisian hospital. He believes the United States can produce physicians as capable of curing disease, "no matter how difficult," as any foreigner who has been compelled to leave his own country because his boasted skill and wonderful discoveries in medicine have failed to afford him a living at home. Let the unfortunate bear in mind, when affliction overtakes him, that no time should be lost in making application to a competent physician, as they would not only obtain relief from pain, avoid mortification through exposure, and elude great constitutional injury, but enable their medical assistant to be more moderate in his charges than he could justly be where symptoms have become confirmed or the disease more widely diffused. The rapid advances of this truly terrifying disease, is sufficient to alarm the boldest heart.—When ulceration and discolored blotches, with racking pains, betray to the unhappy victim the deadly poison preying upon his vitals, then, "and not till then," do many awake to a full sense of their danger.

YOUNG MEN

And others afflicted with seminal debility, "whether original from a certain destructive habit," or from any other cause, with the train of bodily and mental evils which follow, when neglected, should make an early application, with the full assurance that they can be speedily restored to sound health and firm vigor.—this is one of the greatest evils that can befall man, and has doomed thousands of the human race to untimely graves; blasted the brilliant hopes of parents, and blighted, in the bud, the noble ambition of many an aspiring youth. Dyspepsia, weakness of the back, eyes, and limbs, palpitation of the heart, dizziness, forgetfulness, &c. &c., are symptoms of this disease.

IMPOTENCE—IMPUISSANCE.

One of the most frequent penalties paid by those who give unrestrained license to their passions is a loss of virile power. The young, unaware of the fearful results that may ensue, are but too apt to commit excesses. Impotency may, and does, occur from stricture, gravel, deposites in the urine, and from many other causes; but by far the most frequent source of it is an abuse of the sexuel organs, by excessive venery or self-pollution—particularly the last. Too great excitement of the genital organs is, however, productive of other effects, besides premature impotency; it tends to derange the digestive functions, and weaken on the physical and mental powers. Thus parents and others are often deceived as to the true source of the complaints of the youth and young men. It could be shown how attenuation of frame palpitation of the heart, derangement of the nervous system, cough, indigestion, and a train of symptoms, indicative of consumption, are often ascribed to wrong causes, when, in reality, they are the consequence of an alluring and pernicious practice, alike destructive to the mind and body.

Dr. Smith has given particular attention to the cure of female complaints. His method of treating Suppression, Irregularities, and other complaints peculiar to their sex, is safe, and seldom requires but a short time to cure. Patients can be cured at home by addressing a letter to Dr. Smith, describing symptoms, and receive medicine, securely packed from observation, forwarded by express or otherwise, to any part of the country.

N. B. Persons afflicted with any of the above complaints will do well to avoid boasting impostors, whether foreign or native, as also the numerous *Specifics*, advertised as a certain cure for any and every Disease. These preparations are put up to sell, but not to cure, and often do much more harm that good, therefore avoid them. ***A word to the wise is sufficient. Address, post-paid,

☞No letters will be answered unless they contain a remittance or Postage Stamp.

Baltimore Lock Hospital.

DR. JOHNSTON,

THE FOUNDER of this Celebrated Institution, offers the most Certain, Speedy and only effectual remedy in the world for

SECRET DISEASES,

Gonorrhoea, Gleets, Strictures, Seminal Weakness, Weakness of the Back or Limbs, Strictures, Pains in the Lions, Affections of the Kidneys and Bladder, Organic Weakness, Nervous Debility, Decay of the Physical Powers, Dyspepsia, Langor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timity, Tremblings, Dimness of Sight or Giddiness, Disease of the Stomach, Affections of the Head, Throat, Nose or Skin—those terrible disorders arising from the indiscretion or Solitary Habits of youth—those dreadful and destructive practices which produce constitutional debility, render marriage impossible, and destroy both body and mind.

Young Men,

Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit, which annually sweeps to an untimely grave, thousands of young men, of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

Marriage.

Married Persons, or young men contemplating marriage, being aware of physical weakness, organic debility, deformities, &c., should immediately consult Dr. J., and be restored.

Organic Weakness,

Immediately cured and full vigor restored.

He who places himself under the care of Dr. J., may religiously confide in his honor as a gentleman and confidently rely upon his skill as a physician.

OFFICE, No. 7 South Frederick street, Left hand side going from Baltimore street, a few doors from the corner.

Fail not to observe name and number.

Be particular, for *Ignorant, Trifling Quacks,* with false names or *Paltry Humbug Certificates,* attracted by the reputation of Dr. Johnston, lurk near.

All letters must contain a Postage Stamp, to use on the reply.

Dr. Johnston,

Member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the hospitals of London, Parish, Philadelphia and elsewhere, has effected some of the most astonishing cures that ever were known; many troubled with ringing in the head and ears when asleep; great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

Take Particular Notice.

Dr. J., addressed all those who have injured themselves by improper indulgences and solitary habits, which ruin both body and mind, unfitting them either for business, marriage, or society.

These are some of the sad and melancholy effects produced by early habits of youths, viz:

Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Symptoms of Consumption, &c.

Mentally.

The fearful effects on the mind are much to be dreaded—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages, can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, have a singular appearance about the eyes, cough, and symptoms of Consumption.

Young Men

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons, must before contemplating

Marriage,

reflect that a sound mind and body are the most necessary requisits to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection, that the happiness of another becomes blighted with our own.

DR. JOHNSTON'S INVIGORATING REMEDY, FOR ORGANIC WEAKNESS.

By this great and important remedy, Weakness of the Organs are speedily cured, and full vigor restored.

Thousands of the most nervous and debilitated, who had lost all hope, have been immediately relieved. All impediments to Marriage, Physical, or Mental Disqualification, Nervous Trembling, Weakness or Exhaustion of the most fearful kind, speedily cured.

To Strangers.

The many thousands of the most desperate cases cured at this institution within the last twelve years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the papers, and many other persons, notices of which have appeared again before the public, *besides his standing as a gentleman of character and responsibility* is a sufficient guarantee to the afflicted.

Disease of Imprudence.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disase make their appearance, affecting the head, throat, nose, skin, &c., progressing on with frightful rapidity, till death puts a period to his dreadful sufferings by sending him to "that bourne from whence no traveller returns." It is a melancholy fact that thousands fall victims to this terrible disease owing to the unskilfulness of ignorant pretenders, who, by the use of that *deadly poison, mercury,* ruin the constitution and make the residue of life miserable.

Constitutional Debility.

Dr. J., addresses young men and all who have injured themselves by private and improper indulgences.

IMPOTENCE—WEAKNESS OF THE GENITAL ORGANS.

Loss of virile power is the penalty most frequently paid by those who give a loose rein or license to their passions. Young persons are too apt to commit excess from not being aware of the dreadful effects that may ensue. Although impotency occurs from stricture, deposites in the urine, gravel, and from numerous other causes, yet the abuse of the sexual organs, by excessive venery or self-pollution; particularly the latter is the more frequent cause of it. Now who that understands the subject will pretend to deny that the power of procreating the species is lost sooner by those who practice the *solitary vice* than by the prudent. Besides, by permature impotence the digestive functions are deranged, and the physical and mental powers weakened by a too frequent and too great excitement of the genital organs. Parents and guardians are often misled, with respect to the causes or sources of disease in their sons and wards. How often do they ascribe to other causes the wasting of the frame, idiotcy, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms, indicating consumption, when the truth is that they have been caused by indulging in a pernicious, though alluring practice, destructive to both mind and body.

INVOLUNTARY SEMINAL EMISSIONS.

Of this distressing disease, which is me common remit of the above mentioned *secret habit,* but a very brief description, for many reasons, can be given here. The complaint comes on gradually It begins by a too hasty, discharge of semen in copulative and passionate dreams Such emissions being too hasty, have no power, while the erections are feeble, imperfect and soon over. As the disorder grows worse, the discharges or emissions become more easily excited and frequent, often brought on by lascivious ideas, or by merely touching the part. In this deplorable case, the emissions take place without any pleasure and without erection, and in this debilitated and sensitive state of the organs the direful effects of pollution so ruinous to health, take place day and night. Pale, emaciated and weak, the unhappy victim of artificial gratification complains of pain in the head and back, has a languid look, dimness of sight, flushing of the face when spoken to, lowness of spirits, and a vague dread of something, often starting with terror at a sudden sight or sound. He also loaths society, from an innate sense of shame, and feels a dislike to all bodily and mental exertion. Distressed, and his mind fixed upon his miseries, he slyly searches every source that promises relief.—Ashamed to make known his situation to his friends, or those, who, by education, study and practical knowledge, are able to relieve him, he applies to the ignorant and designing, who filch him of his pecuniary substance, and instead of restoring him to health, leave him to sigh over his galling disappointment; the last scene of the drama winds up with mania, catalepsy, epilepsy or some terrible disease of the nerves, and death drops the curtain, hurrying the unhappy patient to an untimely tomb, when his friends are totally ignorant of the real cause.

N. B. The BALTIMORE LOCK HOSPITAL was established for the suppression of Quackery, there being so many persons without knowledge, name or character, calling themselves Physicians, who put advertisement in the public papers, that an institution of this kind was highly necessary to prevent the afflicted, especially strangers, from falling into the hands of the unskillful, who, instead of curing, only take the money and ruin the health. It is this motive alone that induces Dr. J. to continue his advertisements, for the purpose of informing all suffering that he may be consulted at his *OFFICE, No. 7 South Frederick Street, Baltimore.*
