## NEWS ITEMS.

Recently the question has arisen before the Postmaster General whether a deputy postmaster can be compelled to obey a summons to appear in court with a valuable or other letter that rests in his office addressed to another party. The Postmaster General, under a decision of the Attorney General's office, decided that he cannot legally do so.—*Washington Star.*

The Massachusetts Senate passed on the 19th inst. to an engrossment the resolution appropriating $100,000 to aid the free State settlers in Kansas, with an amendment providing that the opinion of the Supreme Court in favor of the constitutionality of the appropriation must be obtained before a dollar can be drawn from the treasury.

It is reported that Lord Naper, the new British Minister at Washington, has been invited to visit Boston under the auspices of the Young Men's Christian Association, for the purpose of delivering an address at the grand anniversary festival of that society on the evening of the 26th instant.

The St. Louis delegation attending the Unitarian Conference at Alton, Ill., withdrew on the 16th inst. on the adoption of a resolution by the Conference declaring the Constitution of the United States a failure, and the decision of the Dred Scott case of no binding power.

A Cincinnati firm has shipped on speculation to the Western Territories, since the 2nd of March, 150 ready-made houses. These buildings are of the cottage style, and thought transported in pieces can be put up ready for occupancy in forty minutes.

The Iowa election has resulted in the choice of the Democratic State candidates by 500 majority, and one of the Republican State candidates by 300 majority. The vote was 17,000 less than it was last Fall, when the Republicans swept the State.

The recent winds have broken the ice in the harbor at Buffalo, and 260,000 bushels of wheat, 78,000 bushels of corn, and 490,000 barrels of flour were received there on the 10th inst.

The Annapolis Republican states that the Hon. James L. Bartol took the oath of office as Judge of the Court of Appeals of this State, on the 12th inst, before the Governor.

PUNISHMENT OF CRIME IN DELAWARE.—We find in the court proceedings at Wilmington, Del., the following:

Joseph Newman, tried for purchasing property from boys who had purloined or stolen it, was convicted. The court sentenced him to pay a fine of $20, to stand in the pillory one hour on the 23d inst., to be imprisoned six months, and wear the convict's jacket six months following his liberation.

Sarah Bostick, who was convicted of stealing from the store of Samuel Ritchie, was sentenced to pay $36.78 as restitution money, to be whipped on the 23d inst., with twelve lashes, and to be sold for a period not exceeding seven years.

## "A THOUSAND DOLLAR PIANO."

We paid a visit, the other day, to the music store of Horace Waters, 333 Broadway, on purpose to see a specimen of his pianos, just manufactured at his up-town establishment, of which we had heard a good deal of boasting. It may not be generally known that Mr. Waters has been established in this city but a little while, having set up in a small way some six years ago as agent for a Boston firm, and gone on by dint of industry and enterprise, till he has become one of the most prominent music publishers and dealers in the country. His musical instruments are well known for their superior qualities, though they scarcely surpass in richness, volume of tone and delicacy of touch some instruments of more obscure makers which we have seen; yet, even in these prime respects, Waters's best pianos and melodeons challenge comparison with the finest made anywhere in the country—though those of Chickering, Gilbert and others are more famous.

The particular piano we went to see, though, is certainly a superb affair. It is characterized by great fullness and softness of tone, and remarkable *expressive* power; while its externals are equally noteworthy: it has a rosewood case, elegantly inlaid with mother-of-pearl, and carved in various cabinet designs; altogether got up with every care of finish. Other pianos we heard in the same room, of equally fine tone—the same class of instruments, in fact, except the case—offered for a fraction of the cost of this very elegant one. Persons wishing for instruments of this kind, whether at the most economical or extravagant price, will be likely to be suited at the ware-room of Horace Waters.—*N. Y. Home Journal.*

HOLLOWAY'S OINTMENT AND PILLS.—Neither caustic nor the knife can ever be required in the treatment of wounds, ulcers, tumors or schirrous swelling, to which Holloway's Ointment has been applied in time. The effect of the Pills on the digestive apparatus is all but miraculous. There is an unfailing test by which to know the genuine, viz: the watermark, "Holloway, New York and London," which appears in semi-transparent letters in every leaf of the book of directions. Unless the same are plainly seen in the paper when held between the eye and the light, the book and the medicine in envelopes is counterfeit.

## VALUABLE FARM FOR SALE.

The subscriber will sell at Public Sale, at the Court House door, in CAMBRIDGE,
On MONDAY, JUNE the 29th, '57,
His FARM lying on the road leading from Cambridge to Church Creek, and located about *three quarters* of a mile from CAMBRIDGE. It contains

**137 1-4 Acres of Land,**

Of which about 100 ACRES are cleared, and the greater portion is in a high state of cultivation; it having been limed and ashed. This place is beautifully situated, and would make a delightful country seat for any gentleman that would like to live convenient to a pleasant country town.

The buildings are a TWO STORY DWELLING and single story attached, which gives it six very pleasant rooms. A good Kitchen, Smoke-House, Granary, Stables and Barn, all new and in complete order. The Garden and Yard are both under new fences, and the farm is completely ditched and enclosed with good plank fences.

There is a Well and Pump of first rate water in the yard.

It is useless to say more, for persons wishing to buy will please call and examine the premises. It has every access to Baltimore, as there are three Steamboats running every week between Cambridge and that city.

The terms will be made accommodating.

## MEDICAL NOTICE.

DR. SMITH would respectfully inform his friends and the public that he continues to be confidentially consulted at his old established MEDICAL HOUSE, No. 11 South Frederick street, on all diseases of a PRIVATE OR DELICATE NATURE.

His long experience and attention to this class of complaints; his safe and speedy method of treatment, and his extraordinary success during a long and extensive practice, enables him, confidently, to promise all persons so afflicted, a safe and radical cure, without injury to the constitution or confinement from business. By a long course of study and practice experience, Dr. S. has now the gratification of presenting the unfortunate with remedies that have never failed, "since he first introduced them," to cure the most alarming case, and that in a very short but reasonable time, without the aid of mercury or any other deleterious drug. Within the last ten years Dr. S. has cured more than thirty thousand cases, of the above character and it may be safely said that *more than one-half* of the patients had been previously treated with mercury and other mineral poisons by some foreign or native pretender to the healing art.

Dr. Smith does not profess to be a Parisian, or a graduate of any London or Parisian hospital. He believes the United States can produce physicians as capable of curing disease, "no matter how difficult," as any foreigner who has been compelled to leave his own country because his boasted skill and wonderful discoveries in medicine have failed to afford him a living at home. Let the unfortunate bear in mind, when affliction overtakes him, that no time should be lost in making application to a competent physician, as they would not only obtain relief from pain, avoid mortification through exposure, and elude great constitutional injury, but enable their medical assistant to be more moderate in his charges than he could justly be where symptoms have become confirmed or the disease more widely diffused. The rapid advances of this truly terrifying disease, is sufficient to alarm the boldest heart. When ulceration and discolored blotches, with racking pains, betray to the unhappy victim the deadly poison preying upon his vitals, then, "and not till then," do many awake to a full sense of their danger.

YOUNG MEN

And others afflicted with seminal debility, "whether original from a certain destructive habit," or from any other cause, with the train of bodily and mental evils which follow, when neglected, should make an early application, with the full assurance that they can be speedily restored to sound health and firm vigor.—This is one of the greatest evils that can befall man, and has doomed thousands of the human race to untimely graves; blasted the brilliant hopes of parents, and blighted, in the bud, the noble ambition of many an aspiring youth. Dyspepsia, weakness of the back, eyes, and limbs, palpitation of the heart, dizziness, forgetfulness, &c. &c., are symptoms of this disease.

IMPOTENCE—IMPUISSANCE.

One of the most frequent penalties paid by those who give unrestrained license to their passions is a loss of virile power. The young, unaware of the fearful results that may ensue, are but too apt to commit excesses. Impotency may, and does occur from stricture, gravel, deposites in the urine, and from many other causes; but by far the most frequent source of it is an abuse of the sexuel organs, by excessive venery or self-pollution—particularly the last. Too great excitement of the genital organs is, however, productive of other effects, besides premature impotency; it tends to derange the digestive functions, and weaken the physical and mental powers. Thus parents and others are often deceived as to the true source of the complaints of the youth and young men. It could be shown how attenuation of frame palpitation of the heart, derangement of the nervous system, cough, indigestion, and a train of symptoms, indicative of consumption, are often ascribed to wrong causes, when, in reality, they are the consequence of an alluring and pernicious practice, alike destructive to the mind and body.

Dr. Smith has given particular attention to the cure of female complaints. His method of treating Suppression, Irregularities, and other complaints peculiar to their sex, is safe, and seldom requires but a short time to cure. Patients can be cured at home by addressing a letter to Dr. Smith, describing symptoms, and receive medicine, securely packed from observation, forwarded by express or otherwise, to any part of the country.

N. B. Persons afflicted with any of the above complaints will do well to avoid boasting impostors, whether foreign or native, as also the numerous *Specifics*, advertised as a certain cure for any and every Disease. These preparations are put up to sell, but not to cure, and often do much more harm than good, therefore avoid them. ***A word to the wise is sufficient.

No letters will be answered unless they contain a remittance or Postage Stamp.

No. 11, South Frederick street.

OFFICE, No. 7 South Frederick street, Left hand side going from Baltimore street, a few doors from the corner.

Fail not to observe name and number.

Be particular, for *Ignorant, Trifling Quacks,* with false names or *Paltry Humbug Certificates,* attracted by the reputation of Dr. Johnston, lurk near.

*All letters must contain a Postage Stamp, to use on the reply.*

**Dr. Johnston,**

Member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the hospitals of London, Parish, Philadelphia and elsewhere, has effected some of the most astonishing cures that ever were known; many troubled with ringing in the head and ears when asleep; great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

**Take Particular Notice.**

Dr. J., addressed all those who have injured themselves by improper indulgences and solitary habits, which ruin both body and mind, unfitting them either for business, marriage, or society.

These are some of the sad and melancholy effects produced by early habits of youths, viz:

Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Symptoms of Consumption, &c.

**Mentally.**

The fearful effects on the mind are much to be dreaded—Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons of all ages, can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, have a singular appearance about the eyes, cough, and symptoms of Consumption.

**Young Men**

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions, or at school, the effects of which are nightly felt, even when asleep, and if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequences of deviating from the path of nature, and indulging in a certain secret habit. Such persons, must before contemplating

**Marriage,**

reflect that a sound mind and body are the most necessary requisits to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection, that the happiness of another becomes blighted with our own.

DR. JOHNSTON'S INVIGORATING REMEDY, FOR ORGANIC WEAKNESS.

By this great and important remedy, Weakness of the Organs are speedily cured, and full vigor restored.

Thousands of the most nervous and debilitated, who had lost all hope, have been immediately relieved. All impediments to Marriage, Physical, or Mental Disqualification, Nervous Trembling, Weakness or Exhaustion of the most fearful kind, speedily cured.

**To Strangers.**

The many thousands of the most desperate cases cured at this institution within the last twelve years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the papers, and many other persons, notices of which have appeared again before the public, *besides his standing as a gentleman of character and responsibility* is a sufficient guarantee to the afflicted.

**Disease of Imprudence.**

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disase make their appearance, affecting the head, throat, nose, skin, &c., progressing on with frightful rapidity, till death puts a period to his dreadful sufferings by sending him to "that bourne from whence no traveller returns." It is a melancholy fact that thousands fall victims to this terrible disease owing to the unskilfulness of ignorant pretenders, who, by the use of that *deadly poison, mercury,* ruin the constitution and make the residue of life miserable.

**Constitutional Debility.**

Dr. J., addresses young men and all who have injured themselves by private and improper indulgences.

*IMPOTENCE—WEAKNESS OF THE GENITAL ORGANS.*

Loss of virile power is the penalty most frequently paid by those who give a loose rein or license to their passions. Young persons are too apt to commit excess from not being aware of the dreadful effects that may ensue. Although impotency occurs from stricture, deposites in the urine, gravel, and from numerous other causes, yet the abuse of the sexual organs, by excessive venery or self-pollution; particularly the latter is the more frequent cause of it. Now who that understands the subject will pretend to deny that the power of procreating the species is lost sooner by those who practice the *solitary vice* than by the prudent. Besides, by permature impotence the digestive functions are deranged, and the physical and mental powers weakened by a too frequent and too great excitement of the genita organs. Parents and guardians are often misled, with respect to the causes or sources of disease in their sons and wards. How often do they ascribe to other causes the wasting of the frame, idiotcy, madness, palpitation of the heart, indigestion, derangement of the nervous system, cough and symptoms, indicating consumption, when the truth is that they have been caused by indulging in a pernicious, though alluring practice, destructive to both mind and body.

*INVOLUNTARY SEMINAL EMISSIONS.*

Of this distressing disease, which is the common remit of the above mentioned *secret habit,* but a very brief description, for many reasons, can be given here. The complaint comes on gradually. It begins by a too hasty, discharge of semen in copulative and passionate dreams. Such emissions being too hasty, have no power, while the erections are feeble, imperfect and soon over. As the disorder grows worse, the discharges or emissions become more easily excited and frequent, often brought on by lascivious ideas, or by merely touching the part. In this deplorable case, the emissions take place without any pleasure and without erection, and in this debilitated and sensitive state of the organs the direful effects of pollution so ruinous to health, take place day and night. Pale, emaciated and weak, the unhappy victim of artificial gratification complains of pain in the head and back, has a languid look, dimness of sight, flushing of the face when spoken to, lowness of spirits, and a vague dread of something, often starting with terror at a sudden sight or sound. He also loaths society, from an innate sense of shame, and feels a dislike to all bodily and mental exertion. Distressed, and his mind fixed upon his miseries, he slyly searches every source that promises relief.—Ashamed to make known his situation to his friends, or those, who, by education, study and practical knowledge, are able to relieve him, he applies to the ignorant and designing, who filch him of his pecuniary substance, and instead of restoring him to health, leave him to sigh over his galling disappointment; the last scene of the drama winds up with mania, catalepsy, epilepsy or some terrible disease of the nerves, and death drops the curtain, hurrying the unhappy patient to an untimely tomb, when his friends are totally ignorant of the real cause.

N. B. The BALTIMORE LOCK HOSPITAL was established for the suppression of Quackery, there being so many persons without knowledge, name or character, calling themselves Physicians, who put advertisement in the public papers, that an institution of this kind was highly necessary to prevent the afflicted, especially strangers, from falling into the hands of the unskillful, who, instead of curing, only take the money and ruin the health. It is this motive alone that induces Dr. J. to continue his advertisements, for the purpose of informing all suffering that he may be consulted at his *OFFICE, No. 7 South Frederick Street, Baltimore.*

ALL SURGICAL OPERATIONS PERFORMED.

N. B. Let no false delicacy prevent you, but apply immediately either personally or by letter.

SKIN DISEASES SPEEDILY CURED.

*To Strangers.*—The Dr.'s Diplomas hang in his office.

## The Medicine of the Million.
PHILOSOPHY AND FACT.
## HOLLOWAY'S PILLS.

THE EXCITING CAUSE OF SICKNESS.

The blood is the life-sustaining agent. It furnishes the component of flesh, bone, muscle, nerve and integument. The stomach is its manufactory, the veins its distributors, and the intestines the channel through which the waste matter rejected in its productions is expelled. Upon the stomach, the circulation and the bowels, these Pills act simultaneously, relieving indigestion, purifying the fluids, and regulating the excretions.

THE NATIONAL COMPLAINT.

Dyspepsia is the most common disease among all classes in this country. It assumes a thousand shapes, and is the primary source of innumerable dangerous maladies; but whatever its type or symptoms, however obstinate its resistance to ordinary preparations, it yields readily and rapidly to this searching and unerring remedy.

BILIOUS AFFECTIONS.

The quantity and quality of the bile are of vital importance to health. Upon the liver, the gland which secretes this fluid, these Pills operate specifically, infallibly rectifying its irregularities, and effectually curing Jaundice, Bilious Remittants, and all the varieties of disease generated by an unnatural condition of the organ.

BOWEL COMPLAINTS.

Unless the bowels perform their functions properly, the whole body suffers. Tens of thousands die annually of Dysentery, Diarrhœa, Chronic Constipation, and other diseases of these waste pipes of the system. The effect of the Pills upon all intestinal disorders, whether casual or epidemic, is a phenomenon in medicine. By following the printed directions, the most alarming cases of bowel complaint are promptly controlled.

A WORD TO FEMALES.

The local debility and irregularities which are the especial annoyances of the weaker sex, and which, when neglected, always shorten life, are relieved for the time being, and prevented for the time to come, by a course of this mild but thorough alterative.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma, Bowel Complaints, Coughs, Colds, Chest Diseases, Costiveness, Dyspepsia, Diarrhœa, Dropsy, Debility, Fever and Ague, Female Complaints, Headaches, Indigestion, Influenza, Inflammation, Inward Weakness, Liver Complaints, Lowness of Spirits, Piles, Stone and Gravel, Secondary Symptons, Veneral Affections and Worms of all kinds.

***Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 62½ cents and $1 each.

☞There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.

CAUTION!

None are genuine unless the words "*Holloway, New York and London,*" are discernable as a *water-mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.
