CHARADE.

I am composed of 25 letters.
My 1st is in regret but not in sorrow,
My 2nd is in hour but not in to-morrow,
My 3rd is in carriage but not in cart,
My 4th is in life but not in heart,
My 5th is in give but not in bestow,
My 6th is in depart but not in go,
My 7th is in still but not in calm,
My 8th is in heart but not in hand,
My 9th is in spell but not in write,
My 10th is in ball but not in kite,
My 11th is in expire but not in extinct,
My 12th is in red but not in pink,
My 13th is in perceive but not in see,
My 14th is in bisect but not in bee,
My 15th is in quince but not in peach,
My 16th is in quest but not in search,
My 17th is in silver but not in gold,
My 18th is in restrict but not in withhold,
My 19th is in keen but not in sharp,
My 20th is in active but not in smart,
My 21st is in sorrow but not in grief,
My 22nd is in faith but not in belief,
My 23rd is in morning but not in day,
My 24th is in wheat but not in hay,
My 25th is in noise but not in clamor,
My 26th is in adz but not in hammer,
My 27th is in nerve but not in sensation,
My 28th is in debate but not in meditation.
My whole is an excellent adage.

KING JACK.

THE VICE-PRESIDENT.—"Irenæus," of the New York Observer, who is travelling at the South, was lately a guest at a wedding in Lexington, Ky., where he met the Hon. John C. Breckinridge, Vice-President of the United States. He thus describes his person, manners and domestic state:

John C. Breckinridge, Vice President of the United States, was one of the guests at the wedding. The rough portraits of him that stared everybody in the face last fall give but a poor likeness of this extraordinary man, who, at a youthful period of life unexampled, has been called to preside over the most august body of men in this country. His form is tall, erect and commanding; his countenance thoughtful; his manners smooth and graceful, and his conversation indicates a sober, intelligent and thinking man. With a lovely and accomplished wife and sweet children, he resides in a modest cottage, but one story high, shaded deeply with old trees, a little way out of town. I could not but admire the simplicity of our republican institutions, when I saw that this great people have come to this embowered cot to find a man to preside over its Senate, and perhaps to fill its chair of state.

FOURTH OF JULY IN GERMANY.—A correspondent of the Philadelphia Ledges writes from Gottingen, July 5th:

Yesterday being the eighty-first anniversary of the Declaration of Independence of the United States of America, the resident Americans celebrated the day by a dinner at the "Krone." The United States Consal at Hanover was present. The room was beautifully decorated with the national colors. The toasts usual on such occasions were drank. England, France and Ireland were represented at the table by guests from those respective countries. After a sumptuous repast, the entire party repaired in the evening in carriages to the Maird Spring, a favorite spot of resort a few miles from the city, where there was a large congregation, attracted thither by the celebration of a singing society. The appearance of the place was made the more picturesque by the illumination by means of many lights and colored lanterns affixed to and suspended from between the trees, and by an effective display of fire works. There was music and dancing, and to be seen the elite of Gottingen.

TOWNS IN KANSAS.—It is stated that in the town of Leavenworth, which is the half-way house over the plains to California, buildings are going up at the rate of two hundred a month. It is supposed that the town will be the great half-way house for the Pacific rail road, Lawrence has a population of about 2,000. It has a beautifully furnished school house, two churches already erected and two more to be built the present season, six or seven religious societies, and two weekly newspapers. Property has been rising very rapidly during the spring, but is now declining slightly, and may continue to do so until the fall emigration. Lots sell at from $200 to $2,500. Rents are high—some wretched shanties, which did not cost more than $100, bringing $8 per month. Board from $4 per week to $2 per day.

GRAND TIMES IN EAST TENNESSEE.—The editor of the Knoxville Register is happy over the accounts lately received in regard to the crops. Hear him:

"Hard Times" will have to surrender now. Never in the history of East Tennessee have our farmers gathered such a harvest as they have been blessed with this season. Wherever we see a farmer we see a cheerful countenance. The wheat crop, in quality and quantity, is by far the best ever grown in this part of the State. The oat crop seems to be nearly as good, and corn, although small for the time of year, nevertheless has a good color, and with a fair season, will yield abundantly. This is truly the farmer's "year of jubilee."

COMING ALONG.—M. Vernet has calculated the orbit of the comet recently discovered by a Berlin astronomer. He appears to be approaching the earth so rapidly that it will soon present a fine object to the naked eye. At present it is believed that it is not Charles the Fifth's comet, of which there has been so much talk, and destined to come into collision with the earth on the 13th of June. Its position is in the Constellation Perseus. The comet wonderers can now start a fresh excitement.

FLIES.—Housekeepers, grocers, butchers and all are crying out against the plague of flies. The following method of preventing their ingress into shops may be of value:

A traveler remarks that the butcher shops of Geneva are all open, and although immense numbers of flies may be seen on the outside walls, not one comes in. This is caused by the inner walls being rubbed over with laurel oil, which is an effective preventive against the intrusion of these troublesome insects.

SINGULAR.—It is said that the rose of Florida, the most beautiful of flowers, emits no fragrace; the bird of Paradise, the most beautiful of birds, gives no songs; the cypress of Greece, the finest of trees, yields no fruit; dandies, the shiniest of men, have no sense; and ball-room belles, the loveliest creatures in the world, are very often ditto—and a little more so!

A MORMON IN TROUBLE.—Recently a disciple of Brigham Young attempted to preach the Mormon doctrine in Smythe county, Va., and though warned by the citizens refused to desist. He was accordingly seized, tarred and feathered, after which he made a rapid exit.

☞The Farmington (Me.) Chronicle estimates the quantity of wool sold in that town this year at 100,000 pounds, and the value at $40,000.

BALTIMORE MARKET.

BALTIMORE, July 31, 1857.

WHEAT.—Mixed white 1 45a$1 50, fair to good do. 1 60a$1 65, and prime and choice white 1 70a$1 75. Fair to good red 1 55a$1 60 per bushel.

CORN.—White 88 cents and prime yellow 87 cents per bushel.

RYE.—Pennsylvania $1 05 per bushel.

OATS.—New Virginia 53 cents, new Maryland 50a55 cents, old do. 60a65 cents, and old Pennsylvania 65a67 cents per bushel.

"A THOUSAND DOLLAR PIANO."

We paid a visit, the other day, to the music store of Horace Waters, 333 Broadway, on purpose to see a specimen of his pianos, just manufactured at his up-town establishment, of which we had heard a good deal of boasting. It may not be generally known that Mr. Waters has been established in this city but a little while, having set up in a small way some six years ago as agent for a Boston firm, and gone on by dint of industry and enterprise, till he has become one of the most prominent music publishers and dealers in the country. His musical instruments are well known for their superior qualities; though they scarcely surpass in richness, volume of tone and delicacy of touch some instruments of more obscure makers which we have seen; yet, even in these prime respects, Waters's best pianos and melodeons challenge comparison with the finest made anywhere in the country—though those of Chickering, Gilbert and others are more famous.

The particular piano we went to see, though, is certainly a superb affair. It is characterized by great fullness and sofiness of tone, and remarkable *expressive* power; while its externals are equally noteworthy: it has a rosewood case, elegantly inlaid with mother-of-pearl, and carved in various cabinet designs; altogether got up with every care of finish. Other pianos we heard in the same room, of equally fine tone—the same class of instruments, in fact, except the case—offered for a fraction of the cost of this very elegant one. Persons wishing for instruments of this kind, whether at the most economical or extravagant price, will be likely to be suited at the ware-room of Horace Waters.—*N. Y. Home Journal.*

HOLLOWAY'S OINTMENT AND PILLS.—*Extraordinary Cure of Erysipelas.*—Mrs. Emma Rowecroft, aged 42, of St. Paul, Minnesota Territory, suffered severely from periodical attacks of erysipelas in the face, to which she appeared to have a constitutional predisposition. In July last she had a return of the complaint, with unusually violent and dangerous symptoms, and under the advice of a friend from New York, obtained a lot of Holloway's Ointment, and applied it according to the directions. The result amazed as well as delighted the unfortunate sufferer and her family. The inflammatory symptoms subsided; the redness faded in the course of a few days to a yellowish hue, and the cuticle, or scarf skin, on the parts affected, came off in the form of a whitish scurf. A second box completed the cure, leaving neither scar nor blemish on the face. The Pills are as efficacious in subduing internal disease, as the Ointment is in removing all external disorders.

OFFICE, No. 7, South Frederick street, Baltimore, Md., seven doors from Baltimore street, East side, up the steps. ☞Be particular in observing the name and number, for Ignorant and Lying Impostors, Cunning and Trifling Quacks, *Shoe Menders, Boot Blacks, Sweeps, Lamp Trimmers*, etc., styling themselves regularly Educated Phisicians, attracted by the reputation of Dr. Johnston, lurk near.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that ever were known; many troubled with ringing in the head and ears when asleep; great nervousness, being alarmed at sudden sound, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A CERTAIN DISEASE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an illtimed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bone and arms, blotches on the head, face and extremities, progressing on with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that bourne from whence no traveller returns."

It is a melancholly fact that thousands fall victims to this terrible disease owing to the unskillfulness of ignorant pretenders, who, by the use of that Deadly Poison, Mercury, ruin the constitution and make the residue of life miserable.

TAKE PARTICULAR NOTICE!

Dr. J. addresses all those who have injured themselves by improper indulgencies and solitary habits which ruin both body and mind, unfitting them for either Business, Study, Society or marriage.

These are some of the sad and melancholy effects procured by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irribility, Derangement of the Digestive Functions, General Debility, symptoms of Consumption, &c.

MENTELLY.—The fearful effects on the mind are much to be dreaded; loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons, of all ages, can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of consumption.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

By this great and important remedy, weakness of the organs is speedily cured, and full vigor restored.

Thousands of the most nervous and debilitated, who had lost all hope, have been immediately relieved.

All impediments to Marriage, Physical or Mental Disqualifications, Nervous Irritability, Trembling and Weakness, or exhaustion of the most fearful kind, speedily cured.

YOUNG MEN,

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions at school, the effects of which are nightly felt, even when asleep, and if not cured render marriage impossible, and destroy both mind and body, should apply immediately.

What a pity a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must before contemplating MARRIAGE, reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

IMPOTENCE—WEAKNESS OF THE GENITAL ORGANS.

Loss of virile power is the penalty most frequently paid by those who give a loose rein or license to their passions. Young persons are too apt to commit excess from not being aware of the dreadful effects that may ensue! Although impotency occurs from stricture, deposites in the urine, gravel, and from numerous other causes, yet the abuse of the sexual organs, by excessive venery or self-pollution; particularly the latter is the more frequent cause of it. Now who that understands the subject will pretend to deny that the power of procreating the species is lost sooner by those who practice the *solitary vice* than by the prudent? Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.

The System becomes Deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Debility, Dyspepsia, Palpitation of Heart, Indigestion, a Wasting of the Frame, Cough, Consumption, &c.

INVOLUNTARY SEMINAL EMISSIONS.

Of this distressing disease, which is the common results of the above mentioned *secret habit*, but a very brief description, for many reasons, can be given here. The complaint comes on gradually. It begins by a too hasty discharge of semen in copulative and passionate dreams. Such emissions being too hasty, have no power, while the erections are feeble, imperfect and soon over. As the disorder grows worse, the discharges or emissions become more easily excited and frequent, often brought on by lascivious ideas, or by merely touching the part in this deplorable case, the emissions take place without any pleasure and without erection, and in this debilitated and sensitvie state of the organs the direful effects of pollution so ruinous to health, take place day and night. Pale, emaciated and weak, the unhappy victim of artificial gratification complains of pain in the head and back, has a languid look, dimness of sight, flushing of the face when spoken to, lowness of spirits, and a vague dread of something, often starting with terror at a sudden sight or sound. He also loaths society, from an innate sense of shame, and feels a dislike to all bodily and mental exertions.

TO STRANGERS.

The many thousands cured at this institution within the last sixteen years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the papers and many other persons, notices of which, have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise, but unless he does so, the afflicted, especially strangers, could not fail to fall into the hands of the many impudent and unlearned Impostors, with innumerable false names or combined Quack shops, swarming these large cities, and copying Dr. Johnston's advertisements. *Shoe Menders, Boot Blacks, Sweeps, Lamp Trimmers, &c., Paltry and Contemptible Imitators*, whose lives, instead of, at the Noble Science of Medicine, have been spent in the most *menial capacity*, now styling themselves "Regularly Educated Physicians," illiterate, shallow-brained fellows, too lazy to work at their original trade, with scarce two ideas beyond a brute, who for the purpose of enticing and deceiving, carrying on five or six offices, under as many different false names, so that the afflicted strangers, escaping one, is sure to tumble headlong into the other. Ignorant Quacks with enormous lying certificates of great and astonishing cures from persons not to be found, who keep you taking large bottles of Licorice Water, and other packages of filthy and worthless compounds, cunningly prepared to impose upon the unfortunate and unsuspecting. Trifling month after month, or as long as the smallest fee can be obtained, and, in despair, leaves you with ruined health, to sigh over your galling disappointment.

Persons doubting these remarks can try these impostors, be ruined in health, and be convinced.

Dr. Johnston wants no Patients, but those fully capable of appreciating and distinguishing the services of a regular thorough bred Physician from the paltry, designing and unlearned Quack.

ONLY PHYSICIAN ADVERTISING.

Dr. Johnston is the only Physician advertising to cure Secret Disease. His Credentials or Diplomas always hang in his office.

A RESISTLESS REMEDY.

HOLLOWAY'S OINTMENT,

CIRCULAR TO THE SICK.

The first hospital surgeons and medical publicists of Europe admit the unparalleled anti-inflammatory and healing properties of this Ointment; Governments sanction its use in their naval and military services, and the masses in this country and throughout the world repose the utmost confidence in its curative properties. It penetrates the sources of inflammation and corruption which underlie the external evidences of disease, and neutralize the fiery elements which feed and exasperate the malady.

RHEUMATISM, SCROFULA, ERYSIPELAS.

These are among the most terrible and agonizing diseases of the muscles, the fleshy fibre and the skin; yet in their worst forms, and when seemingly incurable, they invariably disappear under a persevering application of this soothing, healing, antidote to pain and inflammation

SALT RHEUM, FEVER SORES, STIFF JOINTS.

In cases of Salt Rheum, where medical waters, lotions, and every recipe of the pharmacopœa have proved useless, the Ointment will accomplish a thorough cure. Fever Sores heal quickly under its influence, and its relaxing effect upon contracted sinews is truly wonderful.

DISCHARGING ULCERS.

A most remarkable and happy change is produced in the appearance of malignant ulcers after a few applications of this Ointment. The surrounding redness vanishes, and granules of healthy flesh begin to take the place of the discharged matter. This process goes on more or less rapidly, until the orifice is filled up with sound material, and the ulcer radically cured.

A WORD TO MOTHERS.

The young are the most frequent sufferers from external injuries, and therefore every mother should have this healing preparation constantly at hand. It is an absolute specific for sore breasts, and quickly removes the encrusted sores which sometimes disfigure the heads and faces of children.

SIGNIFICANT FACTS.

This Ointment is universally used on board the Atlantic and Pacific whaling fleet as a cure for scorbutic affections and as the best possible remedy for wounds and bruises. Large supplies of it have recently been ordered by the Sultan of Turkey for hospital purposes.

Both the Ointment and Pills should be used in the following cases:

Bunions, Burns, Chapped Hands, Chilblains, Fistula, Gout, Lumbago, Mercurial Eruptions, Piles, Rheumatism, Ringworm, Salt Rheum, Scalds, Skin Diseases, Swelled Glands, Sore Legs, Sore Breasts, Sore Heads, Sore Throats, Sores of all kinds, Sprains, Stiff Joints, Tetter, Ulcers, Veneral Sores and Wounds of all kinds.

☞Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 62½ cents and $1 each.

☞There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.

CAUTION!

None are genuine unless the words "*Holloway, New York and London*," are discernable as a *water-mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.
