Tennesee Election.

NASHVILLE, August 8th.

The returns of the recent election held in this State, indicate the success of seven or eight Democrats and two or three Americans to Congress. Harris' majority for Governor will exceed 10,000 votes. The election of J. K. Zollikoffer, of the 8th; Ready, of the 5th, and Emerson, of the 9th, (Americans) is doubtful. The State Legislature will be Democratic in both branches.

N. Carolina Congressional Election.

PETERSBURG, August 9th.

But few returns from North Carolina have been received—only those of two closely contested districts, the 1st and 6th. In the first it was thought Mr. Smith, the American, was elected over Shaw, dem. In the 6th the returns favor the election of Mr. Scoles, dem., over Puryear, American.

Texas Election.

NEW ORLEANS, Aug. 7th.

The returns so far indicate the election of Runnels, dem., over Gen. Houston, by about 12,000 majority. Not a single opposition candidate has been elected to the Legislature.

"A THOUSAND DOLLAR PIANO."

We paid a visit, the other day, to the music store of Horace Waters, 333 Broadway, on purpose to see a specimen of his pianos, just manufactured at his up-town establishment, of which we had heard a good deal of boasting. It may not be generally known that Mr. Waters has been established in this city but a little while, having set up in a small way some six years ago as agent for a Boston firm, and gone on by dint of industry and enterprise, till he has become one of the most prominent music publishers and dealers in the country. His musical instruments are well known for their superior qualities, though they scarcely surpass in richness, volume of tone and delicacy of touch some instruments of more obscure makers which we have seen; yet, even in these prime respects, Waters's best pianos and melodeons challenge comparison with the finest made anywhere in the country—though those of Chickering, Gilbert and others are more famous.

The particular piano we went to see, though, is certainly a superb affair. It is characterized by great fullness and softness of tone, and remarkable *expressive* power; while its externals are equally noteworthy: it has a rosewood case, elegantly inlaid with mother-of-pearl, and carved in various cabinet designs; altogether got up with every care of finish. Other pianos we heard in the same room, of equally fine tone—the same class of instruments, in fact, except the case—offered for a fraction of the cost of this very elegant one. Persons wishing for instruments of this kind, whether at the most economical or extravagant price, will be likely to be suited at the ware-room of Horace Waters.—*N. Y. Home Journal.*

ANTIPHLOGISTIC SALT;
A PERFECT SUBSTITUE
FOR THE
Lancet, Leeches and Blisters!

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremeties or skin. Every *form of inflammation* (but no other disease) is subdued by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.

PRIME COST, $1.50 PER DRACHM—PRICE $2 PER DRACHM.

Four months ago this mysterious medicine was submitted to the tribunal of an intelligent public. In that short period nearly *five hundred* editors and publishers (in the United States, Canadas, British Provinces and England) have personally tested or witnessed its efficacy in *Inflammatory Diseases*, and have pronounced it the most valuable medical discovery of this or any preceding age. This enlightened jury of five hundred reliable men, by their unbiased verdict, have given the Antiphlogistic Salt an established character, as will be seen by the following brief extracts:

[From the Boston Traveller.]

"We think the following testimonials from publishers, who received the Salt in payment for advertising, entitled to higher consideration and more confidence, than the certificates ordinarily attached to advertising medicines:"

Lynn (Mass.) Reporter: "The new medicine, the Antiphlogistic Salt, is rapidly working its way to popular favor in this city—having cured Rheumatism, Pleurisy, Rush of Blood to the Head, Croup and Bronchitis."

Lawrence (Mass.) Sentinel: "It is a sure remedy for Inflammatory Complaints."

Huntington (Pa.) Journal: "It stands unrivalled in Inflammatory Diseases."

Norway (Me.) Advertiser: "All who have used the Salt have derived the most beneficial effects from it."

Piketown (O.) Journal, edited by Mrs. E. S. Dexter: "We can say from experience, it is an excellent remedy for Headache, Neuralgia, Ague and Palpitation of the Heart—indeed, we are sure it will do all it professes, and we say God speed the new medicine."

Jeffersonville (Ind.) Democrat: "It has cured several cases of Rheumatism, Bronchitis, Erysipelas and Canker."

Lewiston (Me.) Advocate: "Our journeyman was cured of severe Neuralgia in one week."

Philadelphia (Pa.) Herald: "It is growing very popular here."

Libertytown (Md.) Banner: "It has cured Humors and Inflammatory Cutaneous Diseases."

Waynesville (O.) Visitor: "We know it subdues Fevers, Headache, Toothache and local pains—working *silently* but *effectually*."

Another editor, by letter to Dr. C., says: "I know of several who are using it with great benefit, but unknown to their family physicians, whom they do not wish to *offend!*"

Another: "I have been a dyspeptic for 3 years—have taken the Salt four weeks, and am entirely cured."

Another: "A son of mine, subject to Fits from boyhood, used the Salt one month, and is well."

Marysville Tennessean: "It is a valuable substitute for Venesection and Blisters."

Boonsville (O.) Observer: "In Fevers and Inflammatory Rheumatism it is invaluable."

Pass-Christian (Miss.) Times: "The editor cured of Rush of Blood to the Head."

Western (Ky.) Chronicle: "Every man should have it in his family."

Maine Down-Easter: "Dr. Coggswell's Salt has wrought *great cures.*"

Indiana American Eagle: "It has been used successfully in Nervous Headache."

Another editor, by letter: "One of our compositors has taken it for Pleurisy and Heartburn, and is loud in its praise."

Another: "It is very popular with the ladies in Nervous and Female Complaints."

Another: "It is the best remedy for Fever and Ague ever used in the West."

Another: "My wife has long been afflicted with Inflammation of the Lungs and a hard Cough; she has used the Salt less than one month, and her complaints are wholly removed."

Another: "One of our physicians *turns up his nose at it*, in the face of a Neuralgic cure in my family, which he witnessed. He says *faith* wrought the cure. I told him, faith or no faith, the Salt has done what he could *not* do."

Another: "A child of mine dangerously sick with Scarlet Fever, was quickly cured with the Salt."

Lewis County (N. Y.) Banner: "We know it is *all* it professes to be."

Newark (O.) Times: "It is an excellent remedy for Neuralgia, Headache, Inflamed Eyes and Catarrah. It is indeed a great discovery; and we say, 'Tremble, ye disciples of Esculapius.'"

Another, by letter: "My wife has been cured of Inflammation of the Womb and distressing Piles."

Another: "Our town clerk has had the Spine Complaint for 6 years; has used only one box and is well; and a member of his family was cured of Inflammation of the Kidneys from the same box."

Another: "An aged Scotchman, a compositor in our office, was cured of the Venereal of 14 years' standing, with one box and a half."

Another: "A case of Chronic Rheumatism cured in three weeks."

Palmyra (N. Y.) Sentinel: "It has cured the most virulent form of Salt Rheum."

Jefferson County (N. Y.) Union: "Every family should have it at hand for *immediate use.*"

Cass County (Mich.) Tribune: "It is attended here with *great success.*"

Boston Transcript: "We concur in the views of the Traveller that these editorial verdicts, under the circumstances, are entitled to more than usual considerations."

***While many nostrum-makers victimize the good-natured and pill-ridden public by ordering "from six to a dozen boxes or bottles to cure *any* malady," the discoverer is happy in being able to state, that the most severe forms of recent inflammatory disease are overcome by *one* Acute package, and the most obstinate and long-standing cases by *one* Chronic package. It does just what it claims to do—no more, no less—*equalizes the fluids by removing from the system all arterial and venous obstructions.* NO AGENTS.

To protect the community from impositon by *counterfeits*, the proprieter will emply No AGENT, and has made such arrangements that he can send the Antiphlogistic Salt in any quantity, by MAIL or EXPRESS, to any part of the United States or foreign countries without expense to the purchaser. It is put up in drachm packages for acute disease at $2; chronic packages $5, and family do. $8. It is accompanied with a history of its discovery and full directions for use.

N. B. He repeats—no person in the United States or elsewhere has been appointed agent by him for the sale of his Salt; and those who are announced as agents are only selling the *few $2 packages* received by publishers in payment for advertising. So that hereafter, *till public notice is given*, the Antiphlogistic Salt can only be had by MAIL, (free of expense) through Box 322, Post Office, Boston, Mass., or at his office, 25 Winter street.

***All letters with money should be *registered* at the Post Office where mailed, as it costs but five cents, and will insure their safe arrival. *In one day* (besides office sales) 317 letters were received—mostly for Chronic Packages. F. COGGSWELL, M. D.,

LAND FOR SALE.

THE subscriber offers to sell ONE HUNDRED ACRES or more of

WOOD LAND,

being a part of what has been known as PINEY NECK FARM, now BONNY BROOK. This land is contiguous to the Choptank School House, and lies immediately on the road leading from Cambridge to New Market, and is bounded on the East and West by the Airey and Cord Town roads. It is well covered with

PINE AND OAK,

a portion of which is suitable for SHIP TIMBER, STAVES, PLANK, &c., and the remainder would afford an immense quantity of CORD WOOD, which, being near the water, could be shipped at small cost.

The subscriber would also sell from

25 to 50 Acres of Arable Land,

immediately adjoining the above, should it be desired, which is now in Clover, and in good condition for Wheat this Fall, or Corn in the Spring. This, with the Wood Land, which has an excellent soil, would make a most desirable Farm for any one wishing to reside upon the most public road in the County, and near the Choptank river. Member of the Royal College of Surgeons, London, graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that ever were known; many troubled with ringing in the head and ears when asleep; great nervousness, being alarmed at sudden sound, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

A CERTAIN DISEASE.

When the misguided and imprudent votary of pleasure finds he has imbibed the seeds of this painful disease, it too often happens that an illtimed sense of shame, or dread of discovery, deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitutional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deafness, nodes on the shin bone and arms, blotches on the head, face and extremities, progressing on with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration, till death puts a period to his dreadful sufferings, by sending him to "that bourne from whence no traveller returns."

It is a melancholly fact that thousands fall victims to this terrible disease owing to the unskillfulness of ignorant pretenders, who, by the use of that Deadly Poison, Mercury, ruin the constitution and make the residue of life miserable.

TAKE PARTICULAR NOTICE!

Dr. J. addresses all those who have injured themselves by improper indulgencies and solitary habits which ruin both body and mind, unfitting them for either Business, Study, Society or marriage.

These are some of the sad and melancholy effects procured by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irribility, Derangement of the Digestive Functions, General Debility, symptoms of Consumption, &c.

MENTELLY.—The fearful effects on the mind are much to be dreaded; loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Thousands of persons, of all ages, can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of consumption.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

By this great and important remedy, weakness of the organs is speedily cured, and full vigor restored.

Thousands of the most nervous and debilitated, who had lost all hope, have been immediately relieved.

All impediments to Marriage, Physical or Mental Disqualifications, Nervous Irritability, Trembling and Weakness, or exhaustion of the most fearful kind, speedily cured.

YOUNG MEN,

Who have injured themselves by a certain practice indulged in when alone—a habit frequently learned from evil companions at school, the effects of which are nightly felt, even when asleep, and if not cured render marriage impossible, and destroy both mind and body, should apply immediately.

What a pity a young man, the hope of his country, the darling of his parents, should be snatched from all prospects and enjoyments of life, by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must before contemplating MARRIAGE, reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without these, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own.

IMPOTENCE—WEAKNESS OF THE GENITAL ORGANS.

Loss of virile power is the penalty most frequently paid by those who give a loose rein or license to their passions. Young persons are too apt to commit excess from not being aware of the dreadful effects that may ensue! Although impotency occurs from stricture, deposites in the urine, gravel, and from numerous other causes, yet the abuse of the sexual organs, by excessive venery or self-pollution; particularly the latter is the more frequent cause of it. Now who that understands the subject will pretend to deny that the power of procreating the species is lost sooner by those who practice the *solitary vice* than by the prudent? Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise.

The System becomes Deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Debility, Dyspepsia, Palpitation of Heart, Indigestion, a Waisting of the Frame, Cough, Consumption, &c.

INVOLUNTARY SEMINAL EMISSIONS.

Of this distressing disease, which is the common results of the above mentioned *secret habit*, but a very brief description, for many reasons, can be given here. The complaint comes on gradually. It begins by a too hasty discharge of semen in copulative and passionate dreams. Such emissions being too hasty, have no power, while the erections are feeble, imperfect and soon over. As the disorder grows worse, the discharges or emissions become more easily excited and frequent, often brought on by lascivious ideas, or by merely touching the part in this deplorable case, the emissions take place without any pleasure and without erection, and in this debilitated and sensitvie state of the organs the direful effects of pollution so ruinous to health, take place day and night. Pale, emaciated and weak, the unhappy victim of artificial gratification complains of pain in the head and back, has a languid look, dimness of sight, flushing of the face when spoken to, lowness of spirits, and a vague dread of something, often starting with terror at a sudden sight or sound. He also loaths society, from an innate sense of shame, and feels a dislike to all bodily and mental exertions.

TO STRANGERS.

The many thousands cured at this institution within the last sixteen years, and the numerous important Surgical Operations performed by Dr. Johnston, witnessed by the reporters of the papers and many other persons, notices of which, have appeared again and again before the public, besides his standing as a gentleman of character and responsibility, is a sufficient guarantee to the afflicted.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise, but unless he does so, the afflicted, especially strangers, could not fail to fall into the hands of the many impudent and unlearned Impostors, with innumerable false names or combined Quack shops, swarming these large cities, and copying Dr. Johnston's advertisements. *Shoe Menders, Boot Blacks, Sweeps, Lamp Trimmers, &c., Paltry and Contemptible Imitators*, whose lives, instead of at the Noble Science of Medicine, have been spent in the most *menial capacity*, now styling themselves "Regularly Educated Physicians," illiterate, shallow-brained fellows, too lazy to work at their original trade, with scarce two ideas beyond a brute, who for the purpose of enticing and deceiving, carrying on five or six offices, under as many different false names, so that the afflicted strangers, escaping one, is sure to tumble headlong into the other. Ignorant Quacks with enormous lying certificates of great and astonishing cures from persons not to be found, who keep you taking large bottles of Licorice Water, and other packages of filthy and worthless compounds, cunningly prepared to impose upon the unfortunate and unsuspecting. Trifling month after month, or as long as the smallest fee can be obtained, and, in despair, leaves you with ruined health, to sigh over your galling disappointment.

Persons doubting these remarks can try these impostors, be ruined in health, and be convinced.

Dr. Johnston wants no Patients, but those fully capable of appreciating and distinguishing the services of a regular thorough-bred Physician from the paltry, designing and unlearned Quack.
