CONSUMPTION

And Diseases of the

THROAT AND LUNGS.

Of all the diseases which afflict humanity, CONSUMPTION occupies the first rank. Yet it is a disease which readily yields to appropriate treatment, and can be radically cured by simply administering the appropriate remedy.

Twenty Years Trial

with a success unparalleled in the annals of medicine has conclusively established the value of

WINCHESTER'S

HYPOPHOSPHITE

Of Lime and Soda

in the treatment of Consumption and Pulmonary Diseases. *It is the only Remedy which reaches and at once removes the very cause of the disease, effecting cures and accomplishing results which no other remedy or method of treatment has ever equalled or even approached.*

It acts promptly and certainly in all cases of CONSUMPTION, and in all stages of the Disease, POSSESSING A POWER IN THE SYSTEM GREATER THAN ANY OTHER REMEDY KNOWN TO MEDICAL SCIENCE.

The Effect of the Remedy

Upon the cough and expectoration is very rapid, causing their disappearance or alleviation sometimes in a few days. The night sweats almost always disappear at the end of a week or ten days. The pains over the chest, which many patients feel so acutely, cease or diminish very considerably in a few days. The patient feels, on the second or third day, and sometimes even from the first, a decided increase of strength and a renewed feeling of vigor, comfort and cheerfulness.

The Appetite

Is stimulated and restored. The Blood is enriched and replenished. The patient rapidly gains flesh and strength, and ALL THE GENERAL SYMPTOMS OF THE DISEASE RAPIDLY DISAPPEAR.

☞ *Every case of uncomplicated consumption can certainly be cured by* WINCHESTER'S HYPOPHOSPHITE OF LIME AND SODA, which is acknowledged to be the GREATEST ANTIDOTE to that formidable disease which has ever fallen to the lot of man to possess.

Prices $1 and $2 per Bottle.
