Analytical Chemist.

New York, Sept. 3d, 1858.

I have analyzed a sample of Chesnut Grove Whiskey, received from Charles Wharton, Jr. of Philadelphia, and having carefully tested it, I am pleased to state that it is entirely free from poisonous substances. It is an unusually pure and fine flavored quality of whiskey.

JAMES R. CHILTON,
Analytical Ghemist.

Boston, March 7th, 1859.

I have made a chemical analysis of commercial samples of Chesnut Grove Whiskey, which proves to be free from the heavy Fusil Oils, and perfectly pure and unadulterated. The fine flavor of this whiskey is derived from the grain used in manufacturing it. Respectfully,

A. A. HAYES, M. D.
