1773 SEPT. 23 STEVENSON, RANDOLPH & CHESTON TO

SIDE ONE

Dear Sir

Should this be in time we could wish to have the New Ships Main deck run five or six foot under the Quarter deck or say one Beam, it cant be attended with any great expence or inconvenieney & our W.R. thinks it will be an amazeing security to the Quarter deck Bulk heads & prevent any working in that part which too frequently happens to be the case

we are Dear Sir

Your Obt Hbl Servants

Stevenson Randolph & Cheston
