1773 Oct. 30 Buff & Welsh to James Cheston

SIDE ONE

Mr James Cheston

Cadiz 8 bur 30. 1773

Sir

We beg leave to refer you to and confirm our last 30 Ult. our Country Wheat and that of Barbary continues without any material alteration the former from 57 @ 60 and the latter 54 @ 55 as to that of American Growth the last prices obtained here have been 45 @ 46 N flour 38 @ 40 — We expect from all appearances that prices will be low for these articles in which case it may be an encouragement to speculate in them, however we cannot encourage to do so ffl. they have risen higher than 40 for Wheat N 36 for flour with a good Prospect of their growing advantageous to the Concerned

Indian Corn would now obtain here from 26 @ 28 ℔ heaped fanegue we find it to be much more liable to heat than Wheat and would not recommend shipping any on the same bottom with it or flour as we have had experience of its Damaging both, We are Sir your most Obt Servts

Buff & Welsh
