ONE WHEEL POWER.

WE also have the EDDY POWER, which is one of the most simple and durable Sweep Powers now in use. It consists of one wheel only, and the horses work inside of the wheel. It can be transported easily from place to place, in a common farm wagon, and may be set up in 20 minutes, and taken down in half that time. It is simple in construction, not liable to get out of order, and may be easily repaired, the gearing being made entirely of wrought iron. It may work in the open field, though it is better to have it under cover, when stationary, especially during stormy or very hot weather. For efficiency, durability and simplicity, this, for a sweep power, is preferred by many to all others. Price of the largest size, with our late improvements, $100. E. WHITMAN, Jr.
