MISCELLANEOUS.

For the Port Tobacco Times.

AN ENIGMA.

Just thirteen letters form my name,
Now solve and see from whence I came:
My 6 1 4 and 10's a phrase
Which lovers use their girls to praise;
My 3 5 7 9 we see
Arising from the verb, to be;
My 3 11 2nd slows
An order given girls and beaux;
My 13 10 9 1 4 12th
At *Vars* obstruct the road to wealth;
My 10 4 8 and 1 complete
Is seen when angry persons meet.
My whole when figured out will be
A name of imortality.

JUNIUS.

☞Answer to Enigma in the Times of the 17th instant—"The Port Tobacco Times." JUNIUS.

DUTIES OF A MOTHER.—She should be firm, gentle, kind, always ready to attend to her child.

She should never laugh at him—at what he does that is cunning—never allow him to think of his looks. except to be neat and clean in all his habits.

She should teach him to obey a look—to respect those older than himself; she should never make a command, without seeing that it is performed in the right manner.

Never speak of the child's faults or foibles, or repeat his remarks before him. It is a sure way to spoil a child

Never reprove a child when excited, nor let your tone of voice be raised when correcting. Strive to inspire love, not dread; respect, not fear. Remember you are training and educating a child for eternity.

Teach your children to wait upon themselves, to put away a thing when done with it. But do not forget that you were once a child. The griefs of the little ones are too often neglected; they are great for them. Bear patiently with them, and never in any way rouse their anger, if it can be avoided. Teach a child to be useful whenever opportunity may offer.

☞Addison says that the men who are really the most fond of ladies—who cherish for them the truest respect—are seldom the most popular with the sex. Men of great assurance, whose tongues are lightly hung—who make words supply the place of ideas, and place compliment in the place of sentiment—are the favorites. A due respect for woman leads to respectful action towards them; and respect is mistaken by them for neglect or want of love.

GOODS AT COST.

AS I wish to close my Fall Stock, I will sell all my **MILLINERY and other goods** at cost for cash.

MIDSUMMER-NIGHT'S DREAM.

THIS SPLENDID $20 (4 GUINEA) LONDON Print, beautifully re-engraved by Sartin, embellishes

THE ECLECTIC MAGAZINE

FOR FEB., 1859.

Two match prints, Scott and his friends, Shakespeare and his Contemporaries—28 Portraits—adorn the January No.

Portraits of two Empresses—EUGENE of France in Imperial Robes, and MARIA THERESA of Austria, embellish the March No. Other splendid plates will follow.

THE ECLECTIC invites all lovers of choice reading to its sumptuous pages, which contain—

1. The best articles—cream gathered from 7 *British Quarterlies* and 9 Monthlies—like cream from 16 pans of rich milk gathered into one, for the literary appetite of the reader and his family.

2. THE ECLECTIC is the best, richest in intellectual wealth, most varied, most free from moral poison, and most satisfactory monthly published.

3. Its portrait and artistic embellishments surpass all others. They are an attractive gallery of fine arts, refining in influence.

4. THE ECLECTIC is the cheapest, in view of the treasures it contains. Its reading matter is nearly equal in a year to three entire BRITISH QUARTERLIES, which cost $7. THE ECLECTIC is only $5. Its embellishments alone are worth that money.

5. It is the easiest and cheapest way of getting a choice library of current literature, good for all time.

6. No family—no father for his sons and daughters—no young lady, no young gentleman, can spend this small sum so well in any way for mental improvement and gratification. Try it. You will find it true. Feed the mind with food worthy of its wants and destiny.

7. An intelligent press, far and near, and eminent men, commend THE ECLECTIC in strong and emphatic language.

GREAT ATTRACTIONS!

☞To NEW SUBSCRIBERS, paying in advance, the January number, 1859, will be sent, embellished with two splendid match prints—Sir Walter Scott and his Friends, and Shakespeare and his Contemporaries, containing twenty-eight portraits—surpassing all precedent.

TERMS:

THE ECLECTIC is issued on the first of every month. Each number contains one hundred and forty-four large octavo pages, double columns, on fine paper neatly stitched in green covers with one or more beautiful Steel Portraits by Sartain. The twelve numbers comprise three volumes of 600 pages each, with titles, indexes, and embellishments. Price FIVE DOLLARS. The postage is only three cents a number, pre-paid at the office of delivery. Specimen No. 42 cents in postage stamps.

THE FAMILY JOURNAL,

A WEEKLY PAPER,

Devoted to Literature, News, Romance Science and Art,

John B. Williams, } Editors and Proprietors.
Charles H. Moore, }

PROSPECTUS.

It is a well-known fact that Baltimore, with upwards of 230,000 inhabitants, is now almost entirely dependent on the North for its hebdomanal literature. It is to be seen whether this great city cannot support a literary journal of its own. The parties undertaking this new enterprise are determined to spare no effort or expense to produce a paper which shall effect this purpose, and deserve a share of the support of the reading public. Such a paper, it is hoped, will arouse the somewhat dormant literary condition of our city, develope its inactive talent, and offer at our own door a vehicle for the expression of thought, interchange of ideas, and imparting of new items of information.

The FAMILY JOURNAL will contain Original Stories, Sketches of Travel, Biographical Essays, a Summary of News, domestic and foreign, Reviews of Books, Dramatic and Musical Criticism, Reports of Popular Lectures and such general information as will make it a welcome guest in every family. The proprietors are determined that their journal shall be second to none in the variety, interest, and value of its contents, in its literary excellence and high moral tone. Politics and Sectarianism will be most rigidly excluded.

Particular attention paid to "answers to correspondents," a talented gentleman having been specially engaged for that purpose.

Arrangements have already been made with a distinguished corps of American contributors, and negotiations are still in progres which will ultimately secure the best talent in the country. It is intended that the literary matter in this journal shall be chiefly original; the appropriation from foreign sources, without acknowledgement, in the newspapers of the day, is already too frequent.—Should any article be selected on account of its superior excellence, credit will be invariably given where it is due.

Terms invariably in advance.

One copy, one year, $2
Four copies, " " 7
Ten copies, " " 16
Single copies, FOUR CENTS.

Or, if preferred, it will be delivered by carriers at 16 cents per month.

Parties in the country making up clubs will please address WILLIAMS & MOORE,

AGRICULTURAL LIME.

THE undersigned beg leave to inform the Farmers of Charles and St. Mary's counties that they will deliver at accessible points on any of the rivers of those counties, AGRICULTURAL LIME, (either with or without Magnesia,) at 9½ cents per bushel. Freight, cash, at 3 cents per bushel—the balance six months draft, with interest added, will be taken. We refer to the following letter of the State Chemist and solicit orders from our friends in Charles and St. Mary's counties generally.

BRISCOE, HILLES & CO.,
Havre de Grace, Md.

BALTIMORE, August 8th, 1857.

I have analyzed for Briscoe, Hilles & Co., of Havre de Grace, Md., four samples of "Susquehanna Limestone," from Wrightsville, Pa., taken from four different Quarries. They were found to be free of sand and other impurities, and to contain, besides Carbonate of Lime, respectively from 2 to 15 per cent. of Carbonate of Magnesia. The former will be of general advantage to the lower counties of Maryland, both on the Eastern and Western Shores, and are especially adapted to the application on "White Oak Soils" The latter should be applied to soils which are deficient in both Lime and Magnesia. They are, in general, the "Volcanic Soils" of the Upper, and the light soils in the Tide Water Counties of Maryland. JAMES HIGGINS,

State Agricultural Chemist of Maryland.
