SIDE ONE

Dear Sir

Chester Town June the 15th 1774

Your Letter of the 11th Instant was sent me on Monday Evening by Mr Page's Man, by him I sent orders for what Tobacco I had ready, to be delivered to your Craft, which I suppose may be from 12 to 15 Hhds.—

I believe that in three Weeks I can furnish you with 40 Hhds Tob.o including what your Vessel may get in the Road she is now collecting, and as soon as I know the Quantity I shall have at the different Houses will inform you thereof. I shall be glad to see you over, but should you come so soon as you mention I shall not be at Home, the Committees from the different Counties being desired to meet at Annapolis the 22d Instant. I am in great Hopes of getting as much Tob.o for your next Ship as will discharge S & S.s Debt to your House I shall push hard to effect it. I should be glad all the Principal Merchants & Traders would attend the meeting of the Committee at Annapolis the 22d. and am Dr Sir your most Obedt Servt

Thos Smyth
