POSTCARD

This was purchased in Baltimore
more yesterday for you, but I
found no opportunity to write it.

This is the fire of six or seven
years ago; we went thro the
district some two or three months
after. Mt. Vernon is kept up
by an Association of women from
all the states - and is in even
better condition than when occu-
pied; the rooms are all furnished;
the pictures on cards show things
as they are now. I've always known
of Brimley Park.
