Dear Sir

I must again trouble you about Craft. Young & Chamberlin have not yet got here tho I expect them every Hour & have at least another Trip for them. If Mr. Christies Craft is to be got I shall be glad you will order her to the Rocks at the Mouth of Chum Creek which is just at the mouth of Still pond and where there is a very safe good Harbor The Skipper must there apply to Aequilla Allen who rents a plantation there & lives but a small Distance off for about 500 Bushels of Wheat. When they have got that they must proceed to Turbut Wrights Lift Point and lay on the Inside the Point and he will deliver ab.t 400 Bush.s They must run over to the River Side of Eastern Neck Island and apply to Col.o Nat Hynson Billy Granger & others the Gent.n will direct who will fill her up If you cannot get Mr. Christies or one so large a smaller one must take Allens & Turbut Wrights & the less or none from Eth Island as her Burthen may be. — I expect to have
