1784 JAN. 13 DANIEL CHESTON TO [JAMES CHESTON]

SIDE TWO

into the Store this Week, but even then it will be far from being finished, there has been 5 Men some times constantly at work on it, but they are so exceedingly dilatory that it is impossible to say for a certainty when they will be done — they cannot be longer than this week about the lower Part of it & the moment I take they have done there I shall get into it the Upper Part must be finished afterwards

The Weather I imagine will prevent you from going Over the Bay for some time — I suppose you rode to Annapolis & from thence take a Trip up here in the Stage I endeavour to get something out of the People here, — I have Applied to Arch.d Buchanan for to settle his Account, by Bond, or some thing or Other he Objects to to some Interest that is Charged him however he is to bring the Accounts to Town this Week When we shall come to some kind of a Settlement

There is some Scale Beams in Town about the size that you wanted at West River, but as you have Procured a Number of them from England, have deferred purchasing one for You, untill I hear further from You — Am exceedingly sorry to hear that little Man has had a Return of her Fever, hope that she will soon get better — Give my Affectionate Compts to Mrs Cheston & Am with Compts to all at West River

Your Sincere Bro.
Danl. Cheston
