Mr James Clinton
Tulip Hill

Dear Sir

I received your favour by my Uncle who I had the pleasure of finding here last night on my return from Dover. I thank you for your good wishes and will take care of delivering your message to my little Woman. I met with a letter from her last Evening which if I could spare with would satisfy you my prospects are more flattering in. I went to Dover to end concerning the disposal of the land in the Forest and met with only one Man inclinable to purchase he is to give me an answer in a month. am in great doubt whether any thing will come of it. Mr Hanson. he has paid me £75. and promises to discharge all the Bonds in some short time — I have been looking after my Caroline lands and find they will turn out nothing, they are in the possession of several persons who claim them and will not give them up without a hard Suit
