SIDE TWO

shall come over to Wye River to look a little after my own affairs - I once had thoughts of bringing Sally down with me but on recollection fear the roads of the Season of the year will be very bad for her of Mary to travel, have determined to leave them behind untill March after my return from the Western Shore - shall be obliged to attend the Courts of this & Queen Anns County in March so that I will be A piece before Sally gets back to Wye River when I suppose you & my Sister in Law and family will be back to this Town - Sally says she wrote my Sister about a fortnight ago - hope you will not forget to examine the beds & other things in the Lock Garret every now & then - Will thank you to write me to Philadelphia & give me some account of my affairs from my Overseer & Mr White - Did Labin pay the order? what did you do with Rutcan? - We where happy to hear of the return of the boat that carried Mr Lynch across the bay. as I could not help being uneasy on his acct as the night of the day he left Rock Hall was a read=-full blowing one - Had I returned to Wye River after bringing Sally over, I should have been obliged to have beached the bay & probable have not been in time to have settled my business by the end of the year I may & do thank you & Nancy for undertaking my business which prevented my doing so - Polly writes Nancy & it is probable from her you will get all the news in the small way. - with my best love to my Sister the Girls & my friend James. & also all the rest of my friends. I remain Dear Lee

Your very Sincerely
John Galloway
