Dear Sir

Your by Mr Ringgold came to hand this morning — I intend to Annapolis tomorrow & will consult with Mr Coche what is to be done with Brooms cause & will also attend the trial — I will enquire of the Clerk of the County whether his mother is summoned on the the Negro Cause & if not to have it done — I was at the Neck on Saturday. you have had a plenty of rain there & every thing growing very very well — the land with was fine weather for Tobacco & your locks beautifull you cannot fail making a great Crop — your corn also looks well, but has not so good a Colour as I could wish — I am no friend to a big hill to corn — Tom has got well again Henry has been in the house with a cold but nothing of any great consequence. I saw Mr Cayle he told me he would go this morning to securing the hay. both Timothy & marsh the land with was laid for hay as we had rain every day —

Such land as you describe cannot possible be dear at 35/. if clear & I would have you make the purchase by all means; the number of hands you have on the neck are too great, it never can support them & at the same time give you much profit, and I have a good whole wished to suggest project of more land, for I am of opinion
