Dimensions of sheds and stalls.

sheds used for stabling cows shall not be less than five hundred (500) cubic feet for each animal, and the stalls therefor shall not be less than four (4) feet in width.

To keep premises clean and in good repair.

SEC. 6. And be it further enacted and ordained, That it shall be the duty of each person using any premises for keeping cows for dairy purposes to keep such premises thoroughly clean and in good repair, and well painted or whitewashed at all times.

Buildings to be thoroughly cleaned.

SEC. 7. And be it further enacted and ordained, That it shall be the duty of each person using any premises for keeping cows for dairy purposes to cause the building in which cows are kept to be thoroughly cleaned, and to remove all dung from the premises so as to prevent its accumulation in great quantities.

Cows to be cleaned every day.

SEC. 8. And be it further enacted and ordained, That every person keeping cows for the production of milk for sale shall cause every such cow to be cleaned every day and to be properly fed and watered.

Receptacles for fresh drinking water to be provided.

SEC. 9. And be it further enacted and ordained, That every person using any premises for keeping cows shall cause the yard used in connection therewith to be provided with a proper receptacle for drinking water for such cows; none but fresh clean water to be used in such receptacles.

Premises to be graded and drained.

SEC. 10. And be it further enacted and ordained, That any enclosure in which cows are kept shall be graded and drained so as to keep the surface reasonably dry and to prevent the accumulation of water therein,

No garbage to be allowed in enclosure and no open drain to run through it.

except as may be permitted for the purpose of supplying drinking water. No garbage, urine, faecal matter, or other similar substances, shall be placed or allowed to remain in such enclosure, and no open drain shall be allowed to run through it.

Receptacles made of non-absorbent materials to be used for the reception, storage and delivery of milk.

SEC. 11. And be it further enacted and ordained, That any person using any premises for keeping cows for dairy purposes shall provide and use a sufficient number of receptacles, made of non-absorbent materials, for the reception, storage and delivery of milk, and shall cause them at all times to be cleaned and purified, and shall cause all milk to be removed without delay from the room in which cows are kept.

Health Department to be notified of the existence of any contagious or infectious disease.

SEC. 12. And be it further enacted and ordained, That it shall be the duty of any person having charge or control of any premises upon which cows are kept to notify the Board of Health in writing of the existence of any contagious or infectious disease among such cows immediately upon the discovery thereof, and to thoroughly isolate any cow or cows affected, or which may reasonably be believed to be infected, and to exercise such other precautions as may be directed by the Board of Health.

To submit cows to the tuberculin test.

SEC. 13. And be it further enacted and ordained, That it shall be the duty of any person owning or having control of cows used for the production of milk for sale or exchange to submit said cows to the tuberculin test for tuberculosis.

SEC. 14. And be it further enacted and ordained, That it shall be the duty of any
