806-1887

SIDE ONE

time has been entirely taken up with the Court, and he will leave Nancis Town tomorrow in the Stage. I wish I could tell you the result of the cause between Brother Sam and Pyson which was tried on Saturday, but the jury did not leave their Box untile four Clock on Sunday Morning and nothing transpired from them yesterday, but I fear it went against him, he is very unfortunate in not having Judge Buchannon on the Bench in this cause, he was employed in this suite by my Brother, before he was Judge and does not set in any cases of this kind; and the Associates are the most indifferent Men that ever set on a Bench in Court, and one of them intirely under Nelsons influence, a Lawyer who is engaged against Brother Sam. Wilmer came up in the Stage with Cousin James, but soon got tired of waiting, and on Saturday run off and got three Miles out of Town, the Constables were despatcht and brought him back and Lodged him in Goal for that night, yestaday, he was permitted to come out, and go in the Country to spend the day with Gen.l Pigg who will keep a good watch on him; I believe he is a great Villain. I am happy to tell you Sister Marias Cough is much better, she dined in the Parlor with us yestaday, I think she will soon be confined, as she is very lusty. I shall thank you to send the Water Mellon Seeds you saved for me, to Cousin James as soon as you can that he may send them up by a Waggon, as they will be great prize to us. Brother Sam desires I mention you he has a very fine Bull Calf for you. I am happy to say we are all well, I never was happier in my life. Mr Pilghman will leave me for in a short time but as he travels on the Stage I fear you will not see him, tho' I hope his Business in Annapolis will detain him so as to give him time to spend a night with you, I have nearly filled my paper and must conclude. my Affte. love to my dear Cousins and believe me

Your most Affte. Niece

Anna M. Pilghman
