BOX-1887

SIDE TWO

my good Sister has continued very hearty
till the day before yesterday, she rode out
here in the Afternoon, and after returning
home walked around the Garden which
gave her cold, and last night she had
a Chill and Fever with soreness in both
her Breasts, I did not hear it 'till this
Evening or I should have been with her
to day, Brother Sam sent to desire I would
come out Tomorrow, which I shall certain
ly do. — Mrs L. Ringgold is better she is hob
bling about on Crutches half bent, tho'
this shows that she gains strength, I saw
her yesterday, she begins to increase the length
of her rides and dined last Thursday with
Aunt Galloway. — Uncle is much better
and his Spirits very much improved.
Aunt had a very alarming fainty fit last
Sunday tho' as it was after being bled lately
I hope there was not so much occasion for
alarm as the Doctor thinks, however she laid
speless 20 Minuts and one of her arms very stiff
which makes him think she had a Par
stroke, tho' she has not felt any
her Arm from it since, his hears
Snow. I dont wonder she fainted for the room
laid down after being bled lately for a Headach
but went to walk in the Meadow and that
brought on the faintness. give my most affe
tion to my dear Cousins and believe me
what is to be
done at your house
next fall Uncle G
insists upon it you
wont come up then if you dont before

Your Affte Niece

Anna M. Pilgrim
