a special permit for such use first obtained from the Water Board, which permit shall designate the character of such use and the terms and conditions upon which the water shall be so used, and the charge for such use shall be such as the Water Board shall, in its discretion, deem proper, and shall be in addition to the charge for the use of water in such houses for ordinary domestic purposes; and no water shall be used by any private family for any purpose other than ordinary domestic purposes without such permit first had and obtained, and then only upon the terms and conditions in such permit set forth. Any person or persons using water in a private dwelling house for any purpose than ordinary domestic purposes, without having obtained the permit above provided for, shall forfeit and pay for each and every such offense a fine not exceeding five dollars, to be collected as other fines and penalties are collected.

Horses.

For each and every horse owned and used in the City of Baltimore, not used for drays, carts or wagons, there shall be a charge of $2 per annum; provided, that whenever the Water Board shall deem proper it shall have power to install a water meter in any stable or other place in which any horse or horses is, or are, kept, and in such case the charge for water shall be ascertained from such meter at the rate hereinafter prescribed and shall be in lieu of any other charge for water for such horse or horses.

Carriages.

For each and ever carriage owned and used in the City of Baltimore there shall be a charge of $2 per annum.

Boilers.

For each and ever steam boiler used for generating steam for engines only, when using the water supplied by the city, there shall be a fixed annual charge of $3.50 per horsepower, and such charge shall be in addition to any charge made against the building or premises in which said boiler or boilers may be contained for the use of water therein for any other purpose.

Hydraulic elevators.

The water for the use of hydraulic elevators, where return tank system is not used, shall be at the rate of seventy-eight cents per thousand cubic feet, and the Board shall have the right, if in its judgment, the state of the water supply requires it, to refuse to supply water for hydraulic elevators unless the return tank system is used.

Asylums.

For all orphan asylums, reformatories, homes for the aged, homes for the fallen, hospitals, dispensaries and other charitable institutions which give free care or treatment to over two-thirds of their inmates or patients, a rate of nine cents per thousand cubic feet; for all of the above institutions which give free care or treatment to between one-third and two-thirds of their inmates or patients, a rate of nineteen cents per thousand cubic feet; for all of the above institutions which give free care or treatment to some, but not less than one-third of their inmates or patients, a rate of twenty-nine cents per thousand cubic feet; for all of the above institutions which give no free care or treatment to any inmates or patients, a rate of thirty-nine cents per thousand cubic feet.
