Dr. Kennedy

L 1311

2d. April 1763

I don't recollect to hear any thing about the Lord mayr Signature to be fixed to the affidavit. as almost every thing of that kind is done before the Sitting Justices, & Mr. Sanky is one. Gorman is still in ye. Country; & no certainty of his coming, or when he will be in Town, But reports. when I can hear of his being come to Town, I shall acquaint Mr. Smith of it.

I have no doubt but it may be practible to make out Mr. Carrolls Pedigree, as I believe there's mention of them in Sev.l Offices: and alsoe in the Country where I was born, viz: the King County, as they had very large property there, are still stiled by the Ancient Inhabitants: Princes of Ely or Carroll. your friend to make the story more Clear, he should fill up the blank, on the other side, viz: by mentioning his father & mother, Grend father & Grendmother &c. So that by going back as far as he can; very possible he might join some of the different Branches on Record. Theres another thing wanting, which is some little Credit in Dublin; as you well know; theres no Information to be had in any Office; without being at some little expence. Therefore when that is provided for, I shall be ready to give my trouble. who am Dr. Kennedy Yr. Vrs. &c. H. Whitefr
