My dr. Cousin

I rec^d your letter on Sunday last by the Mail and return you many thanks for it. I am happy to tell you my dr. Mother is better she rode out to day and dined down Stairs. she desires I will tell Aunt Chester that she rec^d letters from Bro^r French to day, and poor Tommy is still in George Town. last Sunday Doctor Pindell came from there, his account of him is really shocking, he had two Pistols in his Pockets, and had threatened to kill several persons; I should be thankful to hear he was taken up and confined, as it is better than for him to commit Murder or meet with an untimely end himself. my dr. Mothers Fortitude is great, God grant her an increase of it, for I believe her troubles will never end while
