here to tea. I have been obliged to defer my visit to West Chester till nearly tea time & been kept there, and when I got home found Hannah & Charles both out. Susan told me Galloway had left a note for me, and as there was no light in either Parlor or dining room & I was obliged to go to my own chamber I asked her to bring it into the dining room & light the gas against the time I should get there. She brought me a note containing the card of Mr & Mrs S. L. Shober which I quietly laid down & took a book till Charles & Hannah should return which was about 10 1/2 o'clock. Then conversation about the Shobers & Hannah said the cards had been left some days ago for H. M. not many & ourselves. I had not expected to receive any letter from you but on calling Susan she brought me the Mill Grove Yellow envelope and made my heart bead with some anxiety lest it should contain something unpleasant. I even hesitated about opening it. Its cheerful tone and pleasant information filled my mouth with thanksgiving and my heart with praise and it was long ere I could settle myself to sleep & now again I am waked early by the same emotions. Let us ever be found "Rejoicing in Hope, patient in tribulation." — The mixture for cough about which you enquire is

Syrup of [illegible]
