SIDE TWO

Just at this moment Yours of Wednesday is rec'd thankful to hear you are doing so well. & hope your anxiety for us will have been relieved. I am quite busy. Mrs Jenis is much more amused I rode out to Upland yesterday & then took tea at G.H. this evening must go to Hutchinsons having had one mortarbier before breakfast yesterday which declined on account of G.H. and another before I was down stairs this morning

Shall I make any effort for a chub nurse here? I find the report of Ellen Plows. I mentioned yesterday was a mistake of Hannah's I have not seen her yet. but will try to do so. I ordered the shoes made as they had none. They were to be the same size & pattern but slippers. I saw Mrs Boulton yesterday she sends much love to Mary & has hopes of her own for some time thus Christmas.

When Charles left he insisted he would return at the end of a week. I begged he could not & do not know what I shall do if he returns.— I find the boys have not sent my bills. so that I have put Robert at work. If I C.P. pays the sum he mentioned we shall be comfortable in that respect. Do not hesitate therefore to draw on S. for any thing you wish. and do whatever will contribute to your comfort. I think of London can not stay I might try an advertisement here for "a steady woman wanting a permanent home in the Country" and see what it will produce

But I must turn out. and write just this in the office that you may not be disappointed of a letter on Saturday.

Sweet endeavour to take good care of myself as I promised for
