1859 June

SIDE TWO

Galloway & the Pacots more. Caused by G's business
He talks something of tomorrow or the end of the week
As the uncertainty is caused by business I can say
nothing else I wonted impress upon him the great
inconvenience you suffer from it.
I then written to Mr Galloway at Annapolis to
engage lumber & write H. M. Smith work to level
Once supposing how many thousand he will require
& fixing the time & place of delivery. I suppose
he will know then where the Coal was landed.
Will he to let some one at the port at once.
I once find the money He and you must
decide where your fence shall be and of what
material. I am as much at a loss about them as
I was about the stairs to the Mag. You succeeded in
these & I shall leave everything to you.
If I.C. pays what he lost in he could. You
can set Mr. Ritter to work & have your tower
finished, I think decidedly either the tower
must go up or the place be thoroughly underpinned
Water let in. I hope he is ready for the
Out house & kitchen yard pave now. If you
have not heard from him write to Galloway
about it. I have only one cent now. To have
your arrangements perfected. Remember that
there is my only trouble, and get all that you
think are contributes to your comfort fixed just
as you wish to have it. Monday 2½ PM
I have just got up to dinner & take up my sheet while waiting

am perfectly well & not fatigued. I sent a present for you
the morning which I shall have sent by steamboat so that
you may get it on Thursday. I think it will give you more
gratification than any of the many beautiful and valuable
articles which have so often manifested the kindness of our
friends, but rather bewilder you as to how you should dispose
them. The box containing it will require some room but
may be taken from the landing in the carriage provided
there are no other trunks but if the Pacot party arrive on
that day you will be obliged to send a horse cart or wagon
for it & their baggage: Tuesday Morning
Your milk keeps me waiting for breakfast till the milkman
comes, and I take the opportunity to continue my
poor communication. Galloway is not well. Last
Evening I took tea with Annie & Israel and about
8½ o'clock Samuel Pacot joined us and we walked up
to Mr Allen's residence in Chestnut St as the Pacot
family wished to take leave of Debby & then wished them
the morning for Mercy. I soon found myself too much
fatigued to be able to give pleasure & came home
Mr Ashhurst called & sat till 11. Helen sailed on
Saturday for Europe. I was sorry to hear from Israel
last Evening that there had been an explosion at
the works on Friday which has thrown them back sadly
He looked anxious it will cause at least two weeks
detention. The Pacots & G. have decided to leave
here on ~~Saturday~~ Friday & take Saturday boat
down H. Dillard will accompany Galloway. So
you will have the large family to provide for
