SIDE TWO

see E. Smith's child who has scarlet fever was taken with it ~~this morning~~ in Baltimore. Fitty says please to bring some new wash boards she says three but I think two will be plenty as there is one here still that they use, she likes the metal ones.

We were surprised to hear yesterday that Murray Cheston has been very ill all last week with inflamatory rheumatism Dr Clayton who is attending him says he never saw a similar case and Dr Stewart never met with but one. He was better yesterday but still suffering very much
