making from a pound and a half to two pounds of butter a week, besides using as much milk and cream as we want. We got some in Baltimore for cooking but we hope to have another cow very soon and at any rate we can very soon get as much as we want from Harwood as they told me they had some calves. The peach trees are said to look very well Harry says he trimmed them a few days before I came. There is nothing to be seen in the garden as yet the peas are planted but not up. I am glad to find that my verbenas have not been killed so that I shall have something to start with. Lottie sent me word she was coming to spend the day with me tomorrow if it is clear. The cooking stove seems to be improved by the new fixtures so that I think we can get along with it very well. I want some more twenty cotton for sewing machine. I do not
