1860 January - March

to let me ask you ~~for~~ to get some flannel for a shawl which she did not get when in B. I shall ask her again this afternoon.

I hear that W. Deshields says his wife shall never leave him again. I would like to hear from her. The baby is quite hoarse again & with a little breaking out around her mouth but I hope it is nothing serious she seems well.

But now I must bid you good bye give a great deal of love to every one

Yours as ever most fondly
Mary H. Murray
