SIDE TWO

Doney who took care of Mother
Henry October May and was of great
service to her — The whalers &c
continued the party — Our dear children
appear to be all enjoying a reasonable
share of comfort and happiness —
Just said some more I received from
Bracket by the first opportunity
Just now we hear as the
Post office has changed its plans
and as Israel's here now and can take
this I shall close with the
assurance of much love to you all
Nannie tells me the first attempt
of Rhenie at needle work Annie Read
Doney well — Mrs Morris has not
yet said any thing more about
the settlement — Our family is now
very pleasant one — I was at
Mr Sheets a day or two since. She does
not say any thing encouraging about
the Hazards who were with her last
winter — and thinks the Miss Stevens
are very far from liberal in the
terms they offer her for her best
rooms this winter.
