SIDE TWO

PHILADELPHIA MAR 9 PA

Miss James Christon & fm
To Mrs Ann E. Morris
Baltimore
Maryland

Thursday a note from Mr Tilney asking me to meet her and Mrs Clement Harris at the Blind Institution. yesterday being what occasioned his business for me I got through very satisfactorily however and fulfilled my purpose of going. Emily at tea at 7½ at home when I left her I found Mrs Elliott & party at Krebs & so came on with them. To day I have been busy the dinner & shall not leave out alone for the afternoon & evening having full occupation for both. I shall take tea with E. who is doing as well as one could expect. I have been more comfortable than before am; nurturing the little spark of faith hoping that it may be fanned into a flame on the principle of our Lord that unto him who hath it shall be given and he shall have more abundance and fearing lest I may provoke the opposite result to be the unless that from him who hath not shall be taken away even that which he hath.

The crowd is now getting round to the N.W. & the rain abating. So that we shall probably have it cold for tomorrow. I shall come again to meet you at tea next on Tuesday: so that you will not hear again from me till you reach home.

May Every blessing temporal & spiritual be with you & the dear family

Caspar Morris
