n.a.

last Evening I hope the coal in some safe harbour. I presume Israel effected the insurance. Mr. Sabine was to have directions about the insurance here after A is landed. I think say about $3000. divided as follows Library $1500. Furniture $1000. Plate $500. I have surveyed the premises and find the loft will hold the entire Cargo. if it were carried up there I have put the Chairs &c out of the Dining room & Chamber in the garret rooms without at all interfering with the sleeping accommodation so that you will not find yourself turned out of the house by your goods. I have set up the stove & shall endeavour to have it ready for fire against you come & Mrs Needs Bryan & Henry are repairing the road to the shore so that it will be in readiness to receive the goods if they arrive safely. I saw the Carpenters in Balt. & they will come down by the Phoenix on Monday next so that the work will all probably be done ere you reach this. I find Sophy still here and nothing has been said to me about her leaving. Mrs Frank Murray's Cook would be glad to come to you from the middle of October till June next. Harry says a good Cook but does nothing else. I spoke to Margt about the Child nurse but am quite inclined to advise you to bring Mary Dobson. She will be always under the Eye of yourself or Mary James (brother) was at the boat & reports our friends & the neighbours all well & Mr D quietly settled again for the winter. The farm netted them $500.
