SIDE ONE

continues to be better please
give much love to her
& tell the girls, we are
all well except Daley who is
in her room with a bad
cold. The Drs & little boys
have been on a short visit
to Galloway Sullanguel, they
returned yesterday leaving
all well. Bob & Mimi enjoyed
themselves highly —
Cousin Cornelia is in Washington
the Drs dined with them today
on his way from Shiloh Circle
to Mrs Ville church — Nannie
is with us — we had quite
an alarm this afternoon after
church just as Mr Dillon after
preaching an excellent sermon
left the Pulpit he was taken
with a spasm of the heart
& could scarcely reach the
little vestry room door before
he fell. The Dr was near
& Mr D beckoned to him to
go to him which he did
just in time to catch him
and break the fall —
it was some time before
he was relieved —
These certainly are very
alarming attacks and if
he does not spare himself
more than he seems willing
to do it must wear him
out, he had very much
work on Friday — the
Bishop has been down &
we had services in Mr
Dillon's parish three successive
days. & that he was very
much worn out. He had
a fall from his horse about
two days since which jarred
him very much, & added
to his previous indisposi-
tion, makes him quite
unfit for such unpleasant
work — I hope his friends
may be able to persuade him
to take a little rest, for
he certainly needs it —
We have not heard from
Virginia for some time
