n.d. Ann [Cheston] Harris incoming letters 1844

SIDE ONE

Monday evening

My dear Sister

I have been down to day & hope the stoves will both be sent in complete order to morrow. I read over a list of the utensils to accompany the Cooking stove, sent me in a letter rec'd from the Doct. this morning. There will also be sent a piece of sheet Iron to close the throat of the chimney, & an old stove newly lined with fire brick. I have given to Mary Cheston a package of $.50 in silver for you by request of the Doct. & when Woodfield comes will attend to sending you Coffee for the laborers & likewise another Barrel of shoulders Bacon & perhaps 100 Bu. oats. But tell Harry to feed them, except when the horses are hard at work, with extreme economy.

The Dr. says he found a full list of patients for him & hopes to accomplish some good by his sojourn in Philad.a. I shall make a remittance of a payment to morrow. Hope they are getting ahead. We now have a threat of another East.r storm. We are all well.

Your affec.te Bro. G. Cheston
