To make hard Soap.

To 9 pounds of clear fat put 6 gallons of boiling water and 2 quarts Soap liquid - boil 2 hours and 10 minutes - then add half pound of Borax - boil 35 minutes more - add ~~the~~ gallon hot water, boil again ~~to~~ 10 minutes - then pour this hot Soap in a large tub, full a finger in depth, and let it stand until the next morning - then cut it into large cakes.
