SIDE ONE

Greenwich, N.J.
Nov. 17th 1867

My dear Doctor;

The place at which this note is dated will at least partially explain why yours of Oct. 30th has not been sooner answered. I should be pleased to contribute more largely to the Christian purpose explained by your letter; but the truth is that my engagements already exceed my means for the remainder of the year, and the sum of $25. for which the enclosed check is drawn is as much as I can spare at present.

Sincerely your friend
Geo. B. Wood
