

March 24th, 1933..

Mr. Arthur Trader,
Land Office,
Annapolis, Maryland.

Dear Mr. Trader:

Inclosed is blue print of basement plan of the Hall of Records. This shows space assigned for photo-stating and blue printing, and also stack story intended for the Abstract Liber.

There will be 2500 running feet of 21 inch high shelves, which I estimate should accomodate over 7000 volumns of the size you have made standard.

Sincerely yours,
