NEW YORK.

Tuesday, June 14th - Saturday, June 18th, New York.

" " " " Went to New York with Mr. Trader, to
look over storage of Archives, etc.

Wed., June 15th; Saw Mr. Paltsits, Custodian of American
History at the New York Public Library. Got some suggestions
from him of people to see and articles to read. Saw represent-
ative of Snead Stack Co; gave him general requirements and asked
for suggestions as to layout, and an approximate price. Saw Mr.
Hironimus in connection with position as draftsman.

Thursday, June 16th; Went to New Haven.

to Went over Sterling Library with Mrs Withington, Secretary
to the Librarian; and also over the Law Library with Mr.
Frederick C. Hicks, who explained how to use their new
type of ventilation.
Saw Japanese 'Biblious' paper being used for repairing
documents.

Friday, June 17th; Spent morning with Mr. Godard, Librarian
of the State Library.

Went over his highly developed plant, and got a number
of very interesting and practical suggestions from him.
The photostats came from the Photostat Corporation,
Rochester, N. Y.
A good place for binding machinery is Lawson, N.Y.;
He seems to have rebuilt machines.
One of Mr. Godard's departments makes a specialty
of getting photostats of Genealogical Records, from
family bibles; also of Church records.
His photostat men thought the new #3 photostat most
useful.

Saturday, June 18th;

We examined the method of taking care of records in the
New York Hall of Records, but saw very little that was help-
ful in solving our problems.
