1874 January-May Cooper Morris Wanting letters #4

SIDE ONE

439 Walnut St
March 9th 1874

Dear Doctor

I am very sorry to hear that you are ill - or rather lame, for I think that you have recovered again. I wanted to see you about the applicants for the two vacancies at the Spring Garden Hosp. who are to be voted for at the next meeting of the Board -

I hope to get away on Wednesday next, and therefore write to you what I wanted to say, privately -

You will find, inclosed, all the letters which have been intrusted to me in relation to the two candidates

I have been so much impressed in favor of these gentlemen from what I have seen, heard and read of them that I should probably have felt bound to urge their election at the meeting -

My unavoidable absence moreover obliges me to do what I never did before, commit myself in advance by writing this note to you, as I have written already (in answer to his inquiry) to another manager - Not I think in their behalf only but in behalf of the present interests of the Hospital, so far as I am able to judge - with great regard and respect

Edward Hamilton
