My dear Doctor

I have received your kind note, & changed the language of the Summons as you requested - The S. School Books have been placed in charge of Dr Dyer & Bible House, now yours, and have directed him to send 100 volumes to West Africa, as you requested. If you have any special directions to give about them, please address Dr Dyer, who has been informed of the case, & will act in conformity with your wishes. I am about to break up housekeeping for the Summer months. Very sincerely

Thos A. Faggart
