1874 June - December Cooper Harris Incoming Letters No. 1899

SIDE ONE

Malvern June 22/74

My dear friend.

I am just creeping out from a disablement of a fortnight's duration - broken backed - blinded & scarcely on speaking terms with any one - But I begin to see with comfort & promptly use my vision to explain my delay in replying to your letter.

You "trust we agree on the great fundamental principle" &c - I have yet to discover wherein we disagree, except on your own case & if it were another, & I get your judgement on it, we will concur here also -
