My dear Doctor.

Fearing you would not quite understand the message I left for you to-day, I send you this. Mr Williamson spent last evening at my house, and told me of your visit to him, I am in hopes it may be the means of his giving something handsome to the Ch H. I had occasion to see Mr J. Welsh to-day, and he mentioned that you were uneasy about my having mentioned your visit to Mr W. Miss M. L. Lewis who is 3rd Directress of the Ch H. had heard of the proposed new girls Home, and was of course, fearful of its interfering, and was inclined to find fault with me, and lay the matter on my souldrs — In explaining I told of my having gone to you, and of your kindness in seeing Mr W — so as to prevent any misunderstanding, which I really believe it has, so as you know, how Blessed the peacemakers are, I feel sure you have no objections to be regarded as such. trusting you may soon be better I remain Very Respectfully yours
