1895 April-September Cooper Morris incoming letters 1994

SIDE ONE

17 East 33rd St. New York.
June 2. 1895.

My dear Doctor Morris,

I thank you most truly for your two kind letters and for the information you gave me, and for the valuable reports which have come to hand. I esteem it a great favor that you should have taken the trouble to aid me – you who are so busy about higher matters. I was not aware until your letter came that you were one of the authorities on Hospital Construction whom the Johns Hopkins Trustees had consulted. I shall look for the volume you

ward in them. I wish we might return, as you say, to the days of open fires without which there cannot be proper ventilation.

I shall read the history of your Penna. Hospital with much interest. In fact have already dipped into it – attracted by the name of Franklin & the story of his 12 money boxes with gilt lettering.

Again thanking you both for myself & for Dr Wylie –

I am with respect & regard
Very sincerely yours.
Abby Howland Woolsey.
