1875 April-September Cooper Morris incoming letters 1994

SIDE ONE

Philadelphia
June 26th 1875

My Dear Doctor Morris

You must not attribute the suggestions I am about to make to you to selfishness on my part tho' I will not deny that that feeling has some share in prompting me to make them, well to come to the point, let me say that I learn from Israel that you are with Mrs Morris at your Daughters for some indefinite period, now it is not well for you to remain too long at any one place, things become monotinous, and time is liable to hang a little heavy upon us, therefore my suggestion is that during next month you and Mrs Morris take a trip to the Virginia Springs Mrs Robins, Emily & myself expect to go there in about a week to remain probably all the month of July, we shall be joined by Mary & Mr Powell, the latter having been recommended by his Physician to go there
