Dr. C. Morris
Esteemed Friend

I fear I did not sufficiently gauge yesterday, thy desire for one of the Bison heads seen in my office, or did not in my offer fully consider, that it might become changed into a full-sized specimen of the "Elephant" species, by the time it came to be disposed of in thy house, and placed in the care of thy wife? However thou will thus see, that I fully appreciate the fact, that the attractions I find in it, may not be visible to others: Please therefore do not hesitate, if he spreads himself too much, or becomes too "lively", (which however I do not anticipate,) to cast him out, or make any other disposition of him.
