Dr Caspar Morris

Dear Dr, I have been very much interested by yr appeal in behalf of the Working Home for Blind Men, the more so from my own difficulty of vision; & it has occurred to me that I might be useful to those who are still greater sufferers in this way, both by reading to them in private & pleading for them in public. I made a visit to the Home on Sat^y, & talked with Mr Hall about the former, tho' not the latter. & have desired to confer with you in regard to both. Mr H. explained to me the difficulty in the way of any clerical

with any regular service or sermon, & I believe that many of our clergy & others would give me an opportunity of doing so on Sundays or in week day services.

Will you be good enough to think of this, & give me yr advice when convenient

Yrs truly & affec^y

W. H. Spear.
