My dear Sir,

I trust you may consider the closeness of my engagements at the Medical Congress, to the Surgical Section of which I had the high honour of being appointed President, as some excuse for my slowness in returning you my best thanks for your extremely kind letter. I assure you I am very sensible of your courtesy, and while I regret that you should have to speak of bodily infirmity on your own part I must tell you that your son has most fully taken your place in hospitality & kindness.

Believe me,
my dear Sir,
sincerely & gratefully yours

Joseph Lister
