

Re: **Nahl of Records.**

PLUMBING SYSTEM.

Note: All work included under this specification shall be subject to the General Conditions hereto attached.

SCOPE OF WORK.

The work embraced under this specification shall cover the complete installation of the Plumbing System in the building, with all plumbing fixtures, hot and cold water piping, soil, waste and vent piping, gas water heater and gas piping, connections to all outside services, storm water and sanitary sewers, area drains, etc., together with all other work as may be incidental to the completed installation and ready for satisfactory and continuous service.

All work shall be done in strict accordance with the Municipal and State Rules and Regulations, and any other authorities having jurisdiction over the premises. All permits required shall be obtained by this Contractor who shall pay any and all charges involved. Any changes in the plans required to comply with such rules and regulations shall be made by this Contractor without additional cost.

Any inspection and tests required by the proper authorities shall be made by this Contractor and the latter shall also notify the Consulting Engineers when tests are made so that their representative may be present. Should tests be made without notice to the Consulting Engineers, they shall require the Contractor to ~~any~~ duplicate the tests.

To prevent any misunderstanding ^{or} on conflict, it shall be furthermore understood between the General Contractor and this Contractor that all arrangements shall be made to carry on the work simultaneously and that the work in this contract shall not interfere
