0621

Neither Dr Knight, Dr Doering nor my self apprehends any clashing or difficulty — There has been none with-
erto on the old plan — There ought to be
less still of liability on the new plan be-
cause one complication and a great des-
ponsibility will be removed —
Dr Knight shows by a very carefully pre-
pared statement, in which every possible
expense is freely estimated, that we
might to make at least $1300 at 80cts
and $985 at 60cts — with an average
of thirty patients — $9078 per An or $8760 per An
On the other hand we should give up
from $4000 to $5500 a year and proportionately
clear gain — say not less than $600 or $700 a year
which we have been receiving —
The sailors are very interesting and demand
our sympathy and such care and moral and
religious influence as we might bring to them —
The cases will be very interesting and instructive
and fully and freely under the observation of all our
medical staff who choose to watch them — Thousands
of cases, mere souls! Shall we shut them out?

Dr Knight — Dr Doering — Mr Morris
